L1: KT 1.0: Broken Promises & Imperial Borders: Why Was Conflict in the Middle East Inevitable?

LEARNING OBJECTIVES

- ☐ Analyse how the Sykes-Picot Agreement (1916) and League of Nations mandates drew artificial straight lines across former Ottoman territories.
- ☐ Evaluate the contradictory British wartime pledges: the McMahon-Hussein Correspondence (1915) versus the Balfour Declaration (1917).
- ☐ Identify the 4 strategic flashpoints of the Arab-Israeli conflict: Maritime Chokepoints, Elevated High Ground, Freshwater Basins, and Jerusalem.

Q1. Study Source A. Using the partition map, explain why the secret Anglo-French division of the Middle East in the Sykes-Picot Agreement laid the groundwork for decades of border conflicts and Arab betrayal.

Do Now Activity

Score: / 10

Which three continents intersect at the Middle East, making it a critical strategic crossroads throughout world history?

What vital maritime waterway, completed in 1869 across Egypt, connects the Mediterranean Sea directly to the Red Sea?

What narrow body of water at the southern tip of the Sinai Peninsula controls maritime access to the Gulf of Aqaba and Israel's southern port of Eilat?

Which elevated volcanic plateau in south-western Syria directly overlooks the Sea of Galilee and northern Israeli civilian settlements?

Which freshwater river forms the natural eastern boundary of the West Bank, flowing south from the Sea of Galilee into the Dead Sea?

Which ancient city is considered a sacred holy sanctuary by Jews, Christians, and Muslims, and claimed as a capital by both Israelis and Palestinians?

Which vast triangular desert peninsula connecting Africa to Asia served as a major military buffer zone between Egypt and Israel?

What secret agreement in May 1916 saw British and French diplomats use a ruler to carve the collapsing Ottoman Empire into European spheres of influence?

What official British letter in November 1917 promised British support for the establishment of a "national home for the Jewish people" in Palestine?

Why is military control of "high ground" like the Golan Heights considered an indispensable defense asset in modern warfare?

Vocabulary Check

The Odd One Out: Select *THREE* terms that share a close historical connection. Identify which *ONE* remaining term is the 'Odd One Out' in this lesson, and explain your historical reasoning:

Sykes-Picot Agreement | Mandate | Balfour Declaration | Zionism | Arab Nationalism | Chokepoint

Q2. Explain why the borders drawn by the Sykes-Picot Agreement (1916) created long-term instability in the Middle East.

Q3. Study Source B. How did Arthur Balfour's pledge to establish a "national home for the Jewish people" create a fundamental and unresolvable contradiction with the rights of the existing Arab majority?

Q4. Explain the fundamental contradiction between Britain's promises to the Arabs (McMahon-Hussein Correspondence) and to the Jews (Balfour Declaration).

Q5 Strategic Flashpoints & Chokepoints: Match each critical geographic flashpoint on the left with its decisive military significance on the right:

1. The Straits of Tiran (Gulf of Aqaba)	• •	Israel's only southern maritime corridor for oil imports; its blockade by Egypt in 1956 and 1967 constituted an immediate act of war.
2. The Golan Heights (South-western Syria)	• •	Elevated volcanic plateau giving Syrian artillery commanding sightlines to bombard civilian Israeli settlements across the Galilee plain.
3. The Suez Canal (Egypt)	• •	Vital 120-mile maritime artery connecting the Mediterranean to the Red Sea, cutting 5,000 miles off trade routes between Europe and Asia.
4. The River Jordan & West Bank Ridge	• •	Natural freshwater boundary and strategic mountain ridge providing essential defensive depth against ground invasion from the east.

Q6. Why were the Golan Heights and the Straits of Tiran of supreme strategic importance in the Arab-Israeli wars?

Q7. By 1945, why did Britain face impossible, conflicting pressures in governing Palestine?

Guidance: Consider the dilemma facing the British government at the end of the Second World War: 1. Palestinian Arabs (two-thirds of the population) demanded immediate independence and an end to Jewish immigration, citing Britain's promises in the 1939 MacDonald White Paper. 2. Jewish leaders and survivors demanded that Britain tear up immigration quotas and create an independent Jewish homeland to rescue 250,000 Holocaust survivors stranded in European displaced persons camps. 3. Britain was economically exhausted from the war and caught in the crossfire of escalating communal violence.

SENTENCE STARTERS:

- On the one hand, Palestinian Arabs placed heavy pressure on Britain because...
- On the other hand, Jewish leaders and Holocaust survivors pressured Britain because...
- This created an impossible dilemma for the British government because...

Map Task 1: The Geopolitical Landscape of the Middle East

Understanding the physical and political geography of the Middle East is the indispensable foundation for understanding its modern conflicts. The borders of the modern Middle East were largely carved out by British and French imperial diplomats following the collapse of the Ottoman Empire after World War One. Control over vital maritime chokepoints—such as the Suez Canal, the Straits of Tiran, and the Persian Gulf—alongside access to scarce freshwater sources like the River Jordan, repeatedly triggered diplomatic showdowns and full-scale wars between 1948 and 1973.

Using the blank outline map provided in your workbook (and the reference map in your textbook), accurately locate and label the 9 key nation-states, 8 capital cities, and 8 critical maritime waterways/chokepoints that shaped 20th-century Middle Eastern history.

Historian's Corner: The Debate over Plan Dalet

Historians sharply disagree on the nature of Plan D. Traditional Israeli historians argue it was a purely defensive necessity to secure besieged Jewish settlements before the Arab armies invaded. However, 'New Historians' like Ilan Pappé argue the text of Plan D proves it was a deliberate blueprint for the systematic ethnic cleansing of Palestinian Arabs from the future Jewish state.

Q11. How does Pappé's interpretation of Plan Dalet fundamentally change our understanding of the Palestinian refugee crisis?
