PUPIL NAME: _____ CLASS: _____ TEACHER: _____

YEAR 8 ENQUIRY • 1750–1901

Industrialisation, Empire & Power: 1750–1901

Energy, Exploitation, Democracy & Global Supremacy

PRIMARY VISUAL EVIDENCE • IMPERIAL CARTOGRAPHY — Walter Crane (1886)

Illustrated by socialist artist Walter Crane for the 1886 Colonial and Indian Exhibition, this iconic map celebrates British global dominance while revealing the deep ideological tensions of Victorian imperialism:

1. THE RED GLOBAL WEB:
British territories coloured in imperial red spanning five continents, linked by steamship lines and undersea telegraph cables.

2. BRITANNIA ENTHRONED ON THE WORLD:
Britannia seated atop the globe holding Neptune's trident, symbolising industrial naval supremacy secured by ironclad warships like HMS Warrior.

3. HUMAN LABOUR & EMPIRE'S WEALTH:
The lower frieze depicts Indian, African, and Australian labourers carrying raw commodities to fuel British factories and furnaces.

4. FREEDOM, FRATERNITY, FEDERATION:
The imperial banner proclaims "Freedom, Fraternity, Federation"—yet working men and colonized subjects fought decades for basic democratic rights.

STEAM & IRON	COLONIAL RULE	CLASS STRUGGLE
Cort's metallurgy & steam power driving global trade.	The British Raj in India & Pax Britannica overseas.	Swing Riots, Chartism & the battle for democracy.

DISCIPLINARY SIGNIFICANCE: In late Victorian Britain, imperial maps presented Britain's industrial triumph as an inevitable civilising mission, obscuring the horrific working-class poverty at home and violent colonial suppression abroad.

DISCIPLINARY HINGE QUESTION: HISTORICAL EVALUATION

Does this map celebrate genuine technological progress and global fraternity, or does it disguise a brutal system of economic extraction that impoverished millions of factory workers and colonized subjects?

Primary Visual Evidence: *Imperial Federation: Map of the World Showing the Extent of the British Empire in 1886* • Walter Crane — BRITISH LIBRARY ARCHIVE • MAPS 957.(46.)

1. CHRONOLOGICAL SPINES [ENQUIRIES 1–5]
Structured chronological note-taking on each left page: 5 causal stages guiding pupil understanding as the teacher narrates the history.

2. DISCIPLINARY WRITING PRACTICE [4M, 8M, 12M]
Targeted extended writing on each right page: causal explanation, narrative account, difference, and evaluative statement essay.

3. CENTREFOLD TIMELINE & ASSESSMENT
Centrefold Living Timeline dual-coding sketchpads (pp. 8–9) and dedicated summative assessment task (p. 16).

COURSE SPECIFICATION • KEY ENQUIRY SEQUENCE	LEARNT	REVISED
Enquiry 1: The Iron & Steam Revolution: Henry Cort & Funtley Works *How did Henry Cort's breakthrough at Funtley Ironworks transform Britain into an industrial and naval superpower?*	☐	☐
Enquiry 2: The Dark Satanic Mills: Child Labour, Slums & Public Health *Was industrialisation a triumph of human progress or a catastrophe of urban suffering for the working class?*	☐	☐
Enquiry 3: Blood, Machines & Ballots: The Hampshire Swing Riots to Chartism *Why did British workers turn to machine-breaking and mass petitions to demand a political voice?*	☐	☐
Enquiry 4: Steam, Steel & Empire: HMS Warrior & The 1857 Indian Rebellion *How did industrial technology sustain the British Empire, and why did Indian soldiers rebel in 1857?*	☐	☐
Enquiry 5: The Victorian Verdict: Workshop of the World or Age of Exploitation? *Did the Industrial Revolution bring unprecedented progress or human catastrophe to the British people?*	☐	☐

KEY STAGE 3 HISTORY • PUPIL PROGRESS & ASSESSMENT RECORD

PUPIL NAME: _____ **CLASS:** _____ **TARGET KS3 LEVEL:** _____

KEY STAGE 3 HISTORY ASSESSMENT PATHWAYS • LEVEL DESCRIPTORS & CRITERIA

YEAR 8 STANDARDS

EMERGING (1–2)	EMERGING+ (3)	EXPECTED (4–5)	EXPECTED+ (6–7)	GREATER DEPTH (8–9)
Recalls key historical narrative facts; describes basic industrial events using guided sentence starters.	Identifies reasons for events; begins to describe causes of industrialisation, urban slums, and democratic protest with structured paragraphs.	Explains multiple causes & consequences; writes structured causal paragraphs using precise dates, technical terms, and primary source details.	Analyses causal significance; evaluates competing historical interpretations and weighs counter-arguments with detailed primary evidence.	Sustained, nuanced evaluative judgement; synthesises technological innovation, human exploitation, and political struggle across 1750–1901.
Focus: *Add dates & key vocabulary.*	***Focus:*** *Explain *why*, not just *what*.*	***Focus:*** *Compare relative importance.*	***Focus:*** *Sustained historical criteria.*	***Focus:*** *Nuanced historical judgement.*

SPECIFICATION ROADMAP • INDUSTRIALISATION, EMPIRE & POWER (1750–1901)

CURRICULUM ARCHITECTURE

Course Rationale & Disciplinary Framework: This 5-enquiry unit investigates Britain's seismic transformation from an agrarian kingdom into the world's first industrial superpower and largest global empire. Pupils track how metallurgical breakthroughs in Hampshire (Henry Cort at Funtley) powered naval supremacy, interrogate the human misery of child labour and urban slums, trace working-class struggle from the Hampshire Swing Riots to Chartism, analyze imperial resistance in 1857 India alongside HMS Warrior at Portsmouth, and construct a 12-mark summative verdict evaluating Victorian progress versus exploitation.

ENQUIRY & DATES	OVERARCHING QUESTION	CORE SPECIFICATION KNOWLEDGE	LOCAL & GCSE TARIFF
Enquiry 1 1750–1787	**How did Henry Cort's breakthrough at Funtley Ironworks transform Britain into an industrial and naval superpower?**	Transition from wood/charcoal to coal; Watt's steam engine; Cort's reverberatory puddling furnace and grooved rolling mill; ending reliance on Baltic imports.	**Funtley Ironworks, Fareham** Q1 Inferences [4m] Q2 Causation [4m]
Enquiry 2 1780–1865	**Was industrialisation a triumph of human progress or a catastrophe of urban suffering for the working class?**	Factory discipline & fines; child labour in textile mills; 1832 Sadler Committee; Matthew Crabtree; cholera & Chadwick (1842); Great Stink 1858 & Bazalgette sewers.	**Sadler Report 1832** Q2(b) Follow-Up [4m] Q1 Consequence [4m]
Enquiry 3 1819–1848	**Why did British workers turn to machine-breaking and mass petitions to demand a political voice?**	Peterloo Massacre (1819); Hampshire Swing Riots (1830); threshing machine destruction; Winchester Assizes trials; 1832 Reform Act; Lovett & People's Charter (1838).	**Meon Valley Swing Riots** Q2 Narrative [8m] Q3 Importance [8m]
Enquiry 4 1857–1860	**How did industrial technology sustain the British Empire, and why did Indian soldiers rebel in 1857?**	East India Company corporate rule; 1857 Indian Rebellion; greased cartridges & Meerut; Rani of Jhansi; 1858 Government of India Act (Raj); HMS Warrior at Portsmouth.	**HMS Warrior, Portsmouth** Q3(b) Difference [4m] Q3(c) Reason [4m]

🔑 CORE DISCIPLINARY VOCABULARY & CONCEPTUAL THRESHOLDS

YEAR 8 KNOWLEDGE REPERTOIRE

Wrought Iron
Tough, fibrous naval iron refined by Cort at Funtley using puddling and grooved rollers.

Laissez-Faire
The political belief opposing state regulation of factory working hours or urban slums.

Captain Swing
The mythical name signing threatening letters during the 1830 machine-breaking in Hampshire.

The British Raj
Direct Crown rule over India established by the 1858 Government of India Act.

Living Standards
The historical debate whether industrialisation improved or worsened workers' lives.

EDEXCEL GCSE HISTORY DISCIPLINARY SKILLS PROGRESSION MATRIX

RIGOROUS KS3-TO-GCSE BRIDGE

1. CAUSAL EXPLANATION
Explaining *why* events happened (e.g. Cort's Funtley iron solving naval crises) using precise causal links rather than simple narrative description.

2. SOURCE FORENSICS
Extracting historical inferences from primary documents (Q1) and designing forensic follow-up investigations (Q2b) using official trial records and testimonies.

3. NARRATIVE SEQUENCING
Constructing analytical narrative accounts (Q2) that sequence causal turning points from Peterloo to the Hampshire Swing Riots and Chartism.

4. EVALUATIVE VERDICT
Weighing contrasting historical interpretations (Q3b/c) and constructing balanced 12-mark evaluative essays (Q5) grounded in historical criteria.

How did Henry Cort's breakthrough at Funtley Ironworks transform Britain into an industrial and naval superpower?

Core Specification Focus: Energy transition from wood and charcoal to coal; James Watt's rotary steam engine (1769–1781); Henry Cort at Funtley Ironworks, Fareham (1775–1784); puddling furnace & grooved rolling mill; Admiralty naval trials at Portsmouth Royal Dockyard (1787); ending dependence on Baltic Orgrounds iron.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 1750–1770 • Why was Britain's early iron industry crippled by charcoal and timber shortages?

- Charcoal Shortage
- Brittle Pig Iron
- Baltic Orgrounds Import

2 1769–1781 • How did James Watt's rotary steam engine revolutionize heavy industrial power?

- Separate Condenser
- Rotary Motion
- Liberated from Rivers

3 1775–1784 • How did Henry Cort's puddling furnace at Funtley chemically refine molten iron?

- Funtley on River Meon
- Reverberatory Furnace
- Stirred with Iron Rods

4 1783–1784 • Why were Cort's patented grooved rollers fifteen times faster than traditional trip hammers?

- Grooved Iron Rollers
- 15x Faster than Hammers
- Standardised Naval Bars

5 1787 • How did the Portsmouth Dockyard naval trials confirm Cort's triumph for the Royal Navy?

- Portsmouth Navy Board
- Anchors & Mast Hoops
- Naval Self-Sufficiency

Fareham ironmaster Henry Cort produced the tough wrought iron that built the Royal Navy's fighting ships right here along the River Meon.

Question 1: Give Two Inferences [4 marks • 5 mins]

DISCIPLINARY DRILL

Give two inferences from Source A (Admiralty Navy Board Report, Portsmouth Dockyard, 1787) about Henry Cort's iron manufactured at Funtley. [4 marks]

Examine the findings of Admiralty smiths regarding the toughness of Funtley iron compared to Swedish Orgrounds iron and its suitability for Royal Navy warships.

Sentence Stems: One inference I can make is that... • The evidence that supports this is... • A second inference is that... • This is shown by...

Question 2: Explain One Causal Factor [4 marks • 5 mins]

STRUCTURED WRITING

Explain one factor that caused Henry Cort to achieve his metallurgical breakthrough at Funtley Ironworks in Hampshire. [4 marks]

Focus on either the urgent naval demand from nearby Portsmouth Royal Dockyard or Cort's innovative chemical combination of the reverberatory puddling furnace with grooved rollers.

Analytical Connectives: *A primary factor was... • For example, during his experiments at Funtley... • Consequently, this impacted iron production because... • Therefore, this proved decisive because...*
Sentence Stems: One decisive factor was... • Specifically, Cort established his works at Funtley because... • This resulted in his metallurgical breakthrough because... • Therefore, without this factor...
Key Terms: Henry Cort • Funtley Ironworks • River Meon • puddling furnace • grooved rollers • wrought iron • Portsmouth Dockyard • Royal Navy

🎨 CENTREFOLD SKETCH CHALLENGES 1 & 2

Turn to Centrefold • Pages 8–9 →

Milestone 1 (Funtley Puddling Furnace • 1784): Sketch ironworkers at Funtley stirring molten iron in Cort's reverberatory furnace beside the River Meon [🔥 reverberatory furnace • // puddling rod • 🌊 River Meon waterwheel].

Milestone 2 (Portsmouth Dockyard Naval Trials • 1787): Sketch Admiralty master smiths testing tough Funtley wrought iron anchors and mast hoops for the Royal Navy [⚓ heavy naval anchor • 🔨 blacksmith anvil • ⛵ warship at dockyard].

Was industrialisation a triumph of human progress or a catastrophe of urban suffering for the working class?

Core Specification Focus: Factory system; factory clock & fines; child labour in textile mills & coal mines; 1832 Sadler Committee; Matthew Crabtree testimony; rapid urban growth & back-to-back housing; cholera epidemics (1831–1854); Edwin Chadwick's 1842 Report; 1858 Great Stink & Joseph Bazalgette's London sewer network.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 1780–1820 • How did the factory clock and machine discipline destroy traditional working rhythms?

• Factory Bell & Clock	
• Fines for Lateness	
• Loom Accidents & Dust	

2 1832 • What shocking abuses of child labour were exposed by the parliamentary Sadler Committee?

• Michael Sadler MP	
• Matthew Crabtree Testimony	
• Scavengers & Piecers	

3 1800–1840 • How did explosive urban growth create deadly back-to-back slums and cellar dwellings?

• Back-to-Back Terraces	
• Cesspools & Dungheaps	
• Overcrowded Cellars	

4 1831–1842 • Why did devastating cholera epidemics shatter the laissez-faire belief in minimal government?

• King Cholera Strikes	
• Edwin Chadwick 1842	
• Miasma vs Contagion	

5 1858–1865 • How did the 1858 Great Stink force Parliament to construct modern underground sewers?

• The Great Stink 1858	
• Thames Stench in Commons	
• Bazalgette Interceptor Sewers	

During the 1832 cholera epidemic, life expectancy for labourers in industrial Manchester dropped to just 19 years.

Question 2(b): 4-Prompt Forensic Source Follow-Up [4 marks • 5 mins]

DISCIPLINARY DRILL

How could you follow up Source B (Matthew Crabtree's testimony to the Sadler Committee, 1832) to find out more about child labour in textile mills? [4 marks]

Use the 4 Edexcel prompts: Detail in Source B • Question I would ask • Type of source I would use • How this would help me find out more.

Sentence Stems: Detail in Source B that I would follow up: ... • Question I would ask: ... • What type of source I would use: ... • How this would help me find out more: ...

Question 1: Explain One Consequence [4 marks • 5 mins]

STRUCTURED WRITING

Explain one consequence of the 1858 Great Stink for public health in Victorian London. [4 marks]

Focus on how the intolerable stench of the River Thames forced Parliament to fund Joseph Bazalgette's monumental 1,100-mile underground interceptor sewer network.

Analytical Connectives: *A significant consequence was... • For instance, Parliament immediately passed legislation to... • This directly led to... • Consequently, the impact on sanitation was...*
Sentence Stems: One consequence was that... • Specifically, this meant that... • This affected public health because... • As a result, waterborne disease...
Key Terms: Great Stink (1858) • River Thames • Joseph Bazalgette • interceptor sewers • cholera • Edwin Chadwick • public health

🎨 CENTREFOLD SKETCH CHALLENGE 3

Turn to Centrefold • Pages 8–9 →

Milestone 3 (The Sadler Committee on Child Labour • 1832): Sketch young piecers crawling beneath spinning mules while parliamentary commissioners record child testimonies [🧵 textile spinning mule • 👶 child piecer crawling • 📋 parliamentary report ledger].

LIVING TIMELINE • PART 1: METALLURGY, MACHINE POWER & AGRARIAN REVOLT (1784–1830)

Living Timeline Dual-Coding Protocol: Complete each milestone sketchpad using dual-coding (combining visual storytelling symbols, causal arrows, and dates) to master the chronological spine across the centre-fold.

1784 • Henry Cort Patented Puddling at Funtley Ironworks

Enquiry 1

Fareham ironmaster Henry Cort invents the reverberatory puddling furnace and grooved rolling mill along the River Meon, enabling Britain to produce tough naval wrought iron from domestic coal and ending reliance on Baltic imports.

1787 • Portsmouth Royal Dockyard Naval Trials

Enquiry 1

Admiralty master smiths at Portsmouth Dockyard conduct rigorous metallurgical tests on Funtley iron, proving it fully equal to Swedish Orgrounds iron for ship anchors, mast hoops, and naval fittings for the Royal Navy.

1819 • The Peterloo Massacre in Manchester

Enquiry 3

60,000 peaceful working-class protesters demanding parliamentary representation and the repeal of the Corn Laws are charged by sabre-wielding cavalry at St Peter's Field; 18 are killed and hundreds maimed.

1830 • The Hampshire "Captain Swing" Riots

Enquiry 3

Starving farm labourers in the Meon Valley, Selborne, and Fareham smash threshing machines and burn ricks under the mythical name "Captain Swing"; the Winchester Assizes sentences 101 men to penal transportation to Australia.

Centrefold timeline: Dual-coding sketches and dates turns narrative history into permanent long-term memory.

LIVING TIMELINE • PART 2: REFORM, REBELLION & IRONCLAD SUPREMACY (1832–1860)

Living Timeline Dual-Coding Protocol: Complete each milestone sketchpad using dual-coding (combining visual storytelling symbols, causal arrows, and dates) to master the chronological spine across the centre-fold.

1832 • The Great Reform Act Passed

Enquiry 3

Fearing middle-class and working-class revolution, Lord Grey's Whig government passes the Reform Act, abolishing 56 rotten boroughs and granting parliamentary seats to industrial cities like Manchester, Birmingham, and Leeds.

1838 • The People's Charter & Chartist Petition

Enquiry 3

William Lovett and the London Working Men's Association publish the People's Charter demanding six points: universal male suffrage, secret ballots, equal constituencies, and salaries for MPs; rejected by Parliament.

1857 • The Indian Rebellion & End of Company Rule

Enquiry 4

Indian sepoys at Meerut mutiny over greased cartridges and corporate exploitation, spreading rebellion across northern India; Parliament abolishes the East India Company in 1858 and establishes direct British Crown rule (The Raj).

1860 • Launch of HMS Warrior at Portsmouth

Enquiry 4

Britain launches the world's first all-iron-hulled, armoured warship at Portsmouth Historic Dockyard; powered by steam and Cort's wrought iron armour, HMS Warrior renders all existing wooden navies instantaneously obsolete.

Why did British workers turn to machine-breaking and mass petitions to demand a political voice?

Core Specification Focus: Post-Napoleonic distress; Peterloo Massacre (1819); Six Acts; 1830 Hampshire Swing Riots (Meon Valley, Selborne, Headley, Fareham); threshing machine destruction; Winchester Special Assizes trials & penal transportation; 1832 Great Reform Act; 1834 Tolpuddle Martyrs; 1838 People's Charter; Moral vs Physical Force Chartism; 1839 Newport Rising.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 1819 • Why did the Peterloo Massacre ignite widespread working-class outrage?

- St Peter's Field
- Sabres Drawn on Crowd
- 18 Dead & 600 Injured

2 Nov 1830 • How did the "Captain Swing" riots sweep through Hampshire and the Meon Valley?

- Threshing Machines Smashed
- Selborne & Headley Workhouses
- Threatening "Swing" Letters

3 Dec 1830 • How ruthlessly did the state punish Hampshire rioters at the Winchester Assizes?

- Special Assizes Winchester
- 300 Prisoners Tried
- 101 Transported to Australia

4 1832 • Why did the Great Reform Act leave working-class reformers bitterly betrayed?

- Rotten Boroughs Cut
- £10 Property Franchise
- Working Class Excluded

5 1838–1839 • How did Chartism unite British workers behind the People's Charter?

- William Lovett & 6 Points
- 1.2m Petition Signatures
- Newport Rising 1839

At the 1830 Winchester Assizes, 19-year-old Henry Cook of Micheldever was hanged for striking a magistrate's hat during the Swing Riots.

Question 2: Narrative Account [8 marks • 10 mins]

PART A • NARRATIVE

Write a narrative account analysing the key events leading from the Peterloo Massacre (1819) and Hampshire Swing Riots (1830) to the publication of the People's Charter (1838). [8 marks]

Stimulus: The Hampshire Swing Riots and machine-breaking (1830) | The 1832 Great Reform Act and exclusion of working men

Analytical Connectives: *The sequence began in 1819 when... • This led to growing agrarian unrest because... • A decisive turning point occurred when... • This directly caused... • Consequently, this culminated in...*

Key Terms: Peterloo (1819) • Hampshire Swing Riots (1830) • threshing machines • Winchester Assizes • 1832 Great Reform Act • People's Charter (1838) • William Lovett

Question 3: Explain Importance [8 marks • 10 mins]

PART B • IMPORTANCE

Explain the importance of the Hampshire Swing Riots (1830) and the Chartist movement for the growth of working-class democracy in 19th-century Britain. [8 marks]

Analytical Connectives: *These movements were of vital importance because... • Prior to 1830, working-class grievances had been... • As a result of agitation, political awareness was... • Consequently, the long-term impact on democracy was...*

Key Terms: Captain Swing • Meon Valley • machine-breaking • Winchester Assizes • universal male suffrage • secret ballot • working-class solidarity

🎨 CENTREFOLD SKETCH CHALLENGES 4 & 5

Turn to Centrefold • Pages 8–9 →

Milestone 4 (The Hampshire Swing Riots • 1830): Sketch farm labourers with sledgehammers breaking a wooden threshing machine beside a Hampshire barn [🔨 heavy sledgehammer • 🌾 shattered threshing drum • ✉️ threatening "Swing" letter].

Milestone 5 (The People's Charter • 1838): Sketch William Lovett presenting the six-point People's Charter petition roll to a crowd of industrial workers [📜 six-point charter petition • 👥 assembled crowd of factory workers • 🗳️ secret ballot box].

Although Parliament rejected all three Chartist petitions, five of the Six Points eventually became British law.

How did industrial technology sustain the British Empire, and why did Indian soldiers rebel in 1857?

Core Specification Focus: British imperial expansion; East India Company corporate rule; doctrine of lapse; 1857 Indian Rebellion (First War of Independence); greased Enfield cartridges; Meerut outbreak; Rani Lakshmibai of Jhansi; 1858 Government of India Act (The British Raj); steam power, telegraph cables & railways; 1860 HMS Warrior at Portsmouth Royal Dockyard.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 1757–1850 • How did the East India Company transform from commercial merchants into imperial rulers?

- **Private Company Army**
- **Doctrine of Lapse Annexations**
- **Heavy Land Tax Demands**

2 May 1857 • Why did greased cartridges spark the spontaneous rebellion at Meerut?

- **Enfield Rifle Cartridges**
- **Cow & Pig Fat Rumour**
- **Meerut Sepoys Mutiny**

3 1857–1858 • How did the rebellion spread and how did Rani of Jhansi resist British forces?

- **Siege of Delhi & Kanpur**
- **Rani Lakshmibai of Jhansi**
- **Heroic Rebel Resistance**

4 1858 • Why did the rebellion force Parliament to dismantle the East India Company and declare the British Raj?

- **Company Rule Abolished**
- **Queen Victoria Proclamation**
- **Direct Crown Government**

5 1860 • How did HMS Warrior at Portsmouth Dockyard demonstrate unbeatable British naval dominance?

- **Iron-Hulled Armour (4.5 in)**
- **Steam Engine & Screws**
- **Portsmouth Historic Dockyard**

HMS Warrior at Portsmouth was so heavily armoured and fast that no enemy warship in the world ever dared fire a single shot at her.

Question 3(b) & 3(c): Contrasting Interpretations [8 marks • 10 mins]

HISTORIOGRAPHICAL ANALYSIS

INTERPRETATION 1 • HISTORIAN NIALL FERGUSON, EMPIRE: HOW BRITAIN MADE THE MODERN WORLD (2003)

"The British Empire was the pioneer of global modernization. By constructing railways, telegraph networks, steamship routes, and establishing common law, Britain brought governance, modern infrastructure, and global trade to a quarter of the world's population. Without the Pax Britannica, the globalization of free markets and technology would have been delayed by generations."

INTERPRETATION 2 • HISTORIAN SHASHI THAROOR, INGLORIOUS EMPIRE: WHAT THE BRITISH DID TO INDIA (2017)

"British rule was not a philanthropic modernization project; it was ruthless economic extraction enforced by military terror. India's share of the global economy fell from 27% to under 3% under British rule, as indigenous textile weaving was destroyed to serve British cotton mills. The railways were built not to benefit Indians, but to rush British troops to quell rebellions and extract raw commodities to ports."

Explain how Interpretations 1 and 2 differ on the motives and consequences of the British Empire. [4 marks]

PART B

Sentence Stems: Interpretations 1 and 2 differ on... • Interpretation 1 portrays the British Empire as... • In contrast, Interpretation 2 argues that British rule was...

Suggest one reason why Interpretations 1 and 2 differ on British imperial rule. [4 marks]

PART C

Scaffolded Sentence Stems: One reason why Interpretations 1 and 2 differ is because of the authors' distinct historical perspectives and selection of evidence... • Specifically, the author of Interpretation 1 emphasizes... whereas the author of Interpretation 2 focuses upon... • Consequently, their conclusions differ because...

CENTREFOLD SKETCH CHALLENGES 6 & 7

Turn to Centrefold • Pages 8–9 →

Milestone 6 (The 1857 Indian Rebellion at Meerut): Sketch sepoys breaking open the ammunition depot at Meerut refusing greased rifle cartridges [Enfield rifle & cartridge • sepoy rebel standard • Meerut cantonment gates].

Milestone 7 (HMS Warrior at Portsmouth • 1860): Sketch the black ironclad hull and steam-funnel of HMS Warrior sailing into the Solent off Portsmouth [iron-hulled warship HMS Warrior • steam engine smokestack • Solent waves].

By 1900, the British Empire encompassed 400 million subjects across five continents, protected by the Royal Navy's iron fleet.

Did the Industrial Revolution bring unprecedented progress or human catastrophe to the British people?

Core Specification Focus: 1851 Great Exhibition at Crystal Palace; Prince Albert & industrial prestige; British railway boom (Brunel & Stephenson); rise of the middle class; enduring poverty & Charles Booth's London poverty maps (1889); Factory Acts & trade unions; synoptic evaluation of industrial capitalism.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 1851 • How did the 1851 Great Exhibition proclaim Britain "Workshop of the World"?

- Crystal Palace Hyde Park
- 6 Million Visitors
- Triumph of Steam & Steel

2 1840–1880 • How did the railway boom transform British geography, diet, and economy?

- Brunel & Stephenson
- Time Standardized by Rail
- Fresh Milk to Cities

3 1850–1890 • How did the Victorian industrial middle class flourish with unprecedented wealth?

- Suburban Villas
- Cheap Consumer Goods
- Leisure & Seaside Holidays

4 1889 • What devastating poverty did Charles Booth's London poverty survey uncover?

- Booth's Colour-Coded Maps
- 30% in Chronic Poverty
- Casual Dock Labour

5 1850–1901 • What is the historical verdict on the impact of the Industrial Revolution?

- Optimists vs Pessimists
- Short-Term Exploitation
- Long-Term Living Standards

At the 1851 Great Exhibition, six million people—a third of Britain's entire population—visited the Crystal Palace in London.

Question 5: Evaluative Statement Essay [12 marks • 15 mins]

EXTENDED WRITING PRACTICE

'The Industrial Revolution brought unprecedented progress for the British people.' How far do you agree? [12 marks]

Stimulus: **The technological breakthroughs and wealth created by steam, iron (Cort at Funtley), and railways** | **The suffering caused by child labour, dangerous factory work, and deadly urban slums** *(You must also use information of your own)*

ANALYTICAL CONNECTIVES:

To some extent I agree that the Industrial Revolution brought unprecedented progress for the British people because... • On the other hand, it can also be argued that industrialisation brought immense suffering because... • Furthermore, long-term developments such as... demonstrate that... • In conclusion, the most significant impact was... because...

KEY VOCABULARY BANK:

Henry Cort • Funtley Ironworks • puddling furnace • steam power • Sadler Committee • back-to-back slums • cholera • Great Exhibition • Charles Booth • Standard of Living debate

Task: *Using the vocabulary and connectives above, write your analytical response below:*

CENTREFOLD SKETCH CHALLENGE 8

Turn to Centrefold • Pages 8–9 →

Milestone 8 (The Great Exhibition at Crystal Palace • 1851): Sketch the towering cast-iron and glass arches of the Crystal Palace with Victorian visitors marveling at steam engines [glass Crystal Palace transept • giant steam engine flywheel • Victorian gentlemen & ladies].

Teacher-Designated Assessment Task

SUMMATIVE ASSESSMENT

Assessment Protocol: Complete your teacher-set key enquiry assessment task, timed exam question, or formal evaluative response on the ruled lines below.
