PUPIL NAME: _____ CLASS: _____ TEACHER: _____

YEAR 8 ENQUIRY • 1750–1901

Industrialisation, Empire & Power: 1750–1901

Energy, Exploitation, Democracy & Global Supremacy

PRIMARY VISUAL EVIDENCE • INDUSTRIAL SUBLIME — Philip James de Loutherbourg, RA (1801)

In 1801, Philip James de Loutherbourg captured the Madeley Wood (Bedlam) ironworks in Coalbrookdale, Shropshire. Depicting the blazing coke blast furnaces illuminating the nighttime sky, the painting stands as the definitive visual monument of Britain's dawn as the world's first industrial superpower:

1. BLAZING COKE BLAST FURNACES:
Violent orange and crimson flames erupt from open furnace tops, symbolising the substitution of timber by coal and coke smelting.

2. CHOKING PLUMES & NOCTURNAL SKY:
Dense billowing black smoke obscures the moonlit sky, capturing the dramatic Sublime power and environmental reality of heavy industry.

3. CAST ENGINE BOILERS & SLAG:
Foreground heaps of newly cast cylindrical steam engine boilers, pipes, and cooling slag illustrate mass metallurgical production.

4. HORSE CARTER & MUSCLE POWER:
A carter guiding workhorses hauling goods highlights the historic threshold between organic animal labor and mechanized steam power.

FOSSIL & STEAM	METALLURGY	CLASS STRUGGLE
Coal, coke smelting & Watt's rotary steam engines.	Cort's puddling & rolling at Funtley transforming iron.	Swing Riots, child labour & the fight for democracy.

DISCIPLINARY SIGNIFICANCE: Loutherbourg's masterpiece captures the Industrial Sublime—a fusion of awe and terror—symbolizing the dawn of an Anthropocene era in which human technological mastery eclipsed natural biological limits.

DISCIPLINARY HINGE QUESTION: HISTORICAL EVALUATION
Does Loutherbourg depict Coalbrookdale as an apocalyptic vision of hell and human suffering, or as a heroic celebration of British technological mastery and industrial progress?

Primary Visual Evidence: *Coalbrookdale by Night* (1801) • Philip James de Loutherbourg, RA — SCIENCE MUSEUM, LONDON • OBJECT NO. 1952-452 • OIL ON CANVAS (68 × 107 CM)

1. CHRONOLOGICAL SPINES [ENQUIRIES 1–5]
Structured chronological note-taking on each left page: 5 causal stages guiding pupil understanding as the teacher narrates the history.

2. DISCIPLINARY WRITING PRACTICE [4M, 8M, 12M]
Targeted extended writing on each right page: causal explanation, narrative account, difference, and evaluative statement essay.

3. CENTREFOLD TIMELINE & NOTES PORTFOLIO
Centrefold Living Timeline dual-coding sketchpads (pp. 8–9) and dedicated lined notes & essay planning pages (pp. 14–15).

COURSE SPECIFICATION • KEY ENQUIRY SEQUENCE	LEARNT	REVISED
Enquiry 1: The Iron & Steam Revolution: Henry Cort & Funtley Works *How did Henry Cort's breakthrough at Funtley Ironworks transform Britain into an industrial and naval superpower?*	☐	☐
Enquiry 2: The Dark Satanic Mills: Child Labour, Slums & Public Health *Was industrialisation a triumph of human progress or a catastrophe of urban suffering for the working class?*	☐	☐
Enquiry 3: Blood, Machines & Ballots: The Hampshire Swing Riots to Chartism *Why did British workers turn to machine-breaking and mass petitions to demand a political voice?*	☐	☐
Enquiry 4: Steam, Steel & Empire: HMS Warrior & The 1857 Indian Rebellion *How did industrial technology sustain the British Empire, and why did Indian soldiers rebel in 1857?*	☐	☐
Enquiry 5: The Victorian Verdict: Workshop of the World or Age of Exploitation? *Did the Industrial Revolution bring unprecedented progress or human catastrophe to the British people?*	☐	☐

How did Henry Cort's breakthrough at Funtley Ironworks transform Britain into an industrial and naval superpower?

1 [1.1] 1750–1770 • Why was Britain's early iron industry crippled by charcoal and timber shortages?

• Deforestation of English Oaks	
• Brittle Impure Pig Iron	
• Dependence on Swedish Imports	

2 [1.2] 1769–1781 • How did James Watt's rotary steam engine revolutionise heavy industrial manufacturing?

• Separate Condenser Efficiency	
• Rotary Shaft Motion	
• Liberation from River Valleys	

3 [1.3] 1775–1784 • How did Henry Cort's puddling furnace at Funtley chemically refine molten iron?

• Reverberatory Furnace Chamber	
• Stirring Molten Decarburisation	
• Eliminating Harmful Sulphur	

4 [1.4] 1783–1784 • Why were Cort's patented grooved rollers fifteen times faster than traditional trip hammers?

• Mechanical Grooved Cylinders	
• Squeezing Out Slag Impurities	
• Uniform Naval Bar Production	

5 [1.5] 1787 • How did the Portsmouth Dockyard naval trials confirm Cort's triumph for the Royal Navy?

• Admiralty Smith Forge Tests	
• Shatter-Resistant Anchors	
• Complete Naval Independence	

Fareham ironmaster Henry Cort produced the tough wrought iron that built the Royal Navy's fighting ships right here along the River Meon.

Question 2: Explain Why [12 marks • 15 mins]

EXTENDED WRITING PRACTICE

Explain why Henry Cort achieved his metallurgical breakthrough in wrought iron production at Funtley in 1784. [12 marks]

Stimulus: **The urgent naval demand for tough iron from Portsmouth Royal Dockyard** | **The innovative combination of the puddling furnace and grooved rollers** *(You must also use information of your own)*

ANALYTICAL CONNECTIVES:

A decisive factor was... • Furthermore, this was significant because... • On the other hand, another important factor was... • In conclusion, the main reason why...

KEY VOCABULARY BANK:

Henry Cort • Funtley Ironworks • River Meon • puddling furnace • grooved rollers • wrought iron • Portsmouth Dockyard • Royal Navy • naval self-sufficiency

Task: *Using the vocabulary and connectives above, write your analytical response below:*

🎨 **CENTREFOLD SKETCH CHALLENGES 1 & 2 • LIVING TIMELINE DUAL-CODING**

TURN TO CENTREFOLD (PAGES 8–9) →

Milestone 1 (Funtley Puddling Furnace • 1784): Sketch ironworkers at Funtley stirring molten iron in Cort's reverberatory furnace beside the River Meon [🔥 reverberatory furnace • 🥄 puddling rod • 🌊 River Meon waterwheel].

Milestone 2 (Portsmouth Dockyard Naval Trials • 1787): Sketch Admiralty master smiths testing tough Funtley wrought iron anchors and mast hoops for the Royal Navy [⚓ heavy naval anchor • 🔨 blacksmith anvil • 🚢 warship at dockyard].

TEACHER CHECK • DISCIPLINARY LEVEL: **[ ] Emerging** **[ ] Developing** **[ ] Secure** **[ ] Greater Depth**

Was industrial factory work a triumph of productive progress or a system of child exploitation?

1 [2.1] 1780–1820 • How did the factory system displace traditional domestic craft production?

• Domestic Home Handlooms	
• Centralised Steam Factories	
• Relentless Machine Speed	

2 [2.2] 1800–1830 • How did the factory clock and draconian fines enforce strict industrial discipline?

• Rigid Fourteen-Hour Shifts	
• Pence-Deduction Lateness Fines	
• Choking Dust & Locked Doors	

3 [2.3] 1810–1832 • Why were pauper apprentice children systematically exploited in northern textile mills?

• Workhouse Apprentice Trafficking	
• Crawling Under Spinning Mules	
• Crushed Fingers & Hair Scalpings	

4 [2.4] 1832 • What shocking physical abuses did Matthew Crabtree reveal to the Sadler Committee?

• Sixteen-Hour Daily Fatigue	
• Overlooker Leather Strap Beatings	
• Permanent Spinal Stunting	

5 [2.5] 1833 • How did the 1833 Factory Act introduce the first legal regulation of child labour?

• Ban on Children Under Nine	
• Eight-Hour Workday Limits	
• Four Statutory Factory Inspectors	

Child piecers in northern textile mills often walked up to thirty miles a day between spinning frames.

Question 1: Describe Two Features [4 marks • 5 mins]

FEATURE DRILL

Describe two features of working conditions for child labourers in Victorian textile mills. [4 marks]

One key feature was... • Specifically, this involved... • A second key feature was... • For example, this meant that...

Question 2: Explain One Consequence [4 marks • 5 mins]

STRUCTURED WRITING

Explain one consequence of the 1833 Factory Act for working children in Britain. [4 marks]

Analytical Connectives: *One key consequence was that... • For example, this meant that... • This directly led to... • As a result...*
Key Terms: Factory Act (1833) • child piecers • textile mills • eight-hour day • factory inspectors • Sadler Committee • state regulation

CENTREFOLD SKETCH CHALLENGE 5

Turn to Centrefold • Pages 8–9 →

Milestone 5 (The Sadler Committee on Child Labour • 1832): Sketch young child piecers crawling beneath spinning mules while parliamentary commissioners record eyewitness testimonies [🧵 textile spinning mule • 👶 child piecer crawling • 📋 parliamentary report ledger].

TEACHER CHECK • DISCIPLINARY LEVEL: [ ] Emerging [ ] Developing [ ] Secure [ ] Greater Depth

Did rapid industrial urbanisation create an unlivable catastrophe of disease and filth for British workers?

1 [3.1] 1800–1830 • How did explosive urban population growth create deadly back-to-back slums?

• Unregulated Speculative Building	
• Windowless Shared Party Walls	
• Flooded Earthen Cellars	

2 [3.2] 1830–1840 • Why did primitive sanitation turn working-class courts into festering cesspools?

• Shared Privy Overflow	
• Towering Nightsoil Dunghills	
• Seeping Groundwater Wells	

3 [3.3] 1831–1848 • Why did terrifying cholera epidemics shatter complacent beliefs in laissez-faire?

• Waterborne Bacterial Agony	
• Blue-Skinned Twelve-Hour Collapse	
• Terrified Wealthy Elites	

4 [3.4] 1842 • How did Edwin Chadwick's 1842 Report prove that filth caused disease and premature death?

• Statistical Lifespan Comparison	
• Nineteen-Year Manchester Average	
• Economic Cost of Epidemics	

5 [3.5] 1858–1865 • How did the 1858 Great Stink compel Parliament to fund Joseph Bazalgette's sewers?

• Midsummer Thames Fermentation	
• Commons Chloride Curtains	
• Bazalgette Interceptor Tunnels	

During the 1832 cholera epidemic, life expectancy for labourers in industrial Manchester dropped to just 19 years.

Question 1: Describe Two Features [4 marks • 5 mins]

FEATURE DRILL

Describe two features of back-to-back housing in 19th-century industrial towns. [4 marks]

One key feature was... • Specifically, this meant that... • A second key feature was... • For instance, this involved...

Question 2: Explain One Consequence [4 marks • 5 mins]

STRUCTURED WRITING

Explain one consequence of the 1858 Great Stink for public health in Victorian London. [4 marks]

Analytical Connectives: *One key consequence was that... • For example, this meant that... • This directly led to... • As a result...*
Key Terms: Great Stink (1858) • River Thames • Joseph Bazalgette • interceptor sewers • cholera • Edwin Chadwick • public health

CENTREFOLD SKETCH CHALLENGE 7

Turn to Centrefold • Pages 8–9 →

Milestone 7 (The Great Stink & Bazalgette's Sewers • 1858): Sketch the muddy, steaming River Thames beside Parliament and the arched brickwork of Joseph Bazalgette's subterranean interceptor sewer [🏛 Palace of Westminster • 👃 gentleman covering nose • 🧱 underground brick sewer tunnel].

TEACHER CHECK • DISCIPLINARY LEVEL: [ ] Emerging [ ] Developing [ ] Secure [ ] Greater Depth

LIVING TIMELINE • PART 1: METALLURGY, MACHINE POWER & AGRARIAN REVOLT (1784–1830)

Living Timeline Dual-Coding Protocol: Complete each milestone sketchpad using dual-coding (combining visual storytelling symbols, causal arrows, and dates) to master the chronological spine across the centre-fold.

1784 • Henry Cort Patented Puddling at Funtley Ironworks

Enquiry 1

Fareham ironmaster Henry Cort invents the reverberatory puddling furnace and grooved rolling mill along the River Meon, enabling Britain to produce tough naval wrought iron from domestic coal and ending reliance on Baltic imports.

1787 • Portsmouth Royal Dockyard Naval Trials

Enquiry 1

Admiralty master smiths at Portsmouth Dockyard conduct rigorous metallurgical tests on Funtley iron, proving it fully equal to Swedish Orgrounds iron for ship anchors, mast hoops, and naval fittings for the Royal Navy.

1819 • The Peterloo Massacre at St Peter's Field, Manchester

Enquiry 4

Manchester magistrates order Yeomanry cavalry to charge 60,000 peaceful cotton workers demanding universal suffrage, killing 18 and injuring 650; Parliament responds with the repressive Six Acts.

1830 • The Hampshire "Captain Swing" Riots Across the Meon Valley

Enquiry 4

Starving farm labourers in the Meon Valley, Selborne, and Fareham smash threshing machines and burn ricks under the mythical name "Captain Swing"; the Winchester Assizes sentences 101 men to penal transportation to Australia.

Centrefold timeline: Dual-coding sketches and dates turns narrative history into permanent long-term memory.

LIVING TIMELINE • PART 2: FACTORY REFORM, SLUM SANITATION & THE BALLOT (1832–1872)

Living Timeline Dual-Coding Protocol: Complete each milestone sketchpad using dual-coding (combining visual storytelling symbols, causal arrows, and dates) to master the chronological spine across the centre-fold.

1832 • The Sadler Committee Eyewitness Report on Child Labour

Enquiry 2

Michael Sadler's parliamentary committee publishes horrifying eyewitness testimony of 14-hour days, physical beatings, and crippling injuries suffered by child piecers in northern textile mills, forcing the passage of the 1833 Factory Act.

1832 • Passage of the Great Reform Act Enfranchising Manchester

Enquiry 5

Terrified of revolution and a run on the Bank of England, Parliament abolishes 56 rotten boroughs and grants MPs to Manchester, Birmingham, and Leeds, though the £10 franchise deliberately excludes the working class.

1858 • The Great Stink of the Thames & Bazalgette's Sewers

Enquiry 3

A boiling heatwave turns the sewage-filled Thames into an unbearable stench that invades Parliament; MPs immediately fund Joseph Bazalgette's 82-mile underground brick sewer network, permanently ending waterborne cholera.

1872 • The Secret Ballot Act First Deployed at Pontefract

Enquiry 5

William Gladstone's government passes the Ballot Act, abolishing corrupt open hustings and requiring private voting in wooden booths, permanently eliminating landlord coercion and employer intimidation of working voters.

Why did British workers turn to machine-breaking and secret oaths to resist starvation and oppression?

1 [4.1] 1811–1816 • Why did textile croppers and knitters turn to nocturnal machine-breaking under "General Ludd"?

• Powerloom Wage Collapses	
• Sledgehammer Midnight Raids	
• Capital Frame-Breaking Act	

2 [4.2] Aug 1819 • Why did the Peterloo Massacre ignite widespread working-class fury against the state?

• Peaceful St Peter's Field Crowd	
• Manchester Yeomanry Sabre Charge	
• Repressive Tory Six Acts	

3 [4.3] Nov 1830 • How did the "Captain Swing" riots sweep through Hampshire and the Meon Valley?

• Starvation Winter Destitution	
• Sledgehammer Threshing Destruction	
• Nocturnal Hayrick Arson	

4 [4.4] Dec 1830 • How brutally did the Winchester Special Assizes punish Hampshire machine-breakers?

• Winchester Great Hall Trials	
• Micheldever Youth Execution	
• Australian Penal Transportation	

5 [4.5] 1834 • Why did the harsh punishment of the Tolpuddle Martyrs provoke a national outcry?

• Friendly Society Mutual Aid	
• Obscure Secret Oaths Law	
• Massive London Protest Marches	

At the 1830 Winchester Assizes, 19-year-old Henry Cook of Micheldever was hanged for striking a magistrate's hat during the Swing Riots.

Question 1: Describe Two Features [4 marks • 5 mins]

FEATURE DRILL

Describe two features of the 1830 Hampshire Swing Riots. [4 marks]

One key feature was... • Specifically, this involved... • A second key feature was... • For example, this meant that...

Question 2: Narrative Account [8 marks • 10 mins]

STRUCTURED WRITING

Write a narrative account analysing the key events leading from the Peterloo Massacre (1819) and Hampshire Swing Riots (1830) to the Tolpuddle Martyrs (1834). [8 marks]

Stimulus: **The cavalry charge at St Peter's Field, Manchester (1819)** | **The destruction of threshing machines across Hampshire (1830)**

Analytical Connectives: *The sequence began when... • This led to conflict because... • A decisive turning point occurred when... • As a result, this culminated in...*

Key Terms: Peterloo (1819) • Six Acts • Hampshire Swing Riots (1830) • threshing machines • Winchester Assizes • Tolpuddle Martyrs (1834) • penal transportation • trade unions

CENTREFOLD SKETCH CHALLENGES 3 & 4

Turn to Centrefold • Pages 8–9 →

Milestone 3 (The Peterloo Massacre • 1819): Sketch the Manchester Yeomanry cavalry charging into unarmed demonstrators listening to Henry Hunt [mounted cavalry with drawn sabres • "Orator" Hunt on hustings • reform banner].

Milestone 4 (The Hampshire Swing Riots • 1830): Sketch farm labourers with sledgehammers breaking a wooden threshing machine beside a Hampshire barn [heavy sledgehammer • shattered threshing drum • threatening "Swing" letter].

TEACHER CHECK • DISCIPLINARY LEVEL: **[ ] Emerging** **[ ] Developing** **[ ] Secure** **[ ] Greater Depth**

The public outrage over the Tolpuddle Martyrs forced the British government to grant full royal pardons within two years.

How did the British people dismantle the corrupt unreformed parliament to win democratic rights?

1 [5.1] 1800–1830 • Why was Britain's unreformed parliamentary system condemned as a corrupt oligarchy?

• Under-Five-Percent Electorate	
• Old Sarum & Newtown Rotten Boroughs	
• Unrepresented Industrial Cities	

2 [5.2] 1831–1832 • How did public rebellion and economic panic force the passage of the 1832 Great Reform Act?

• Bristol Reform Riots & Fires	
• "Days of May" Bank Run Gold Panic	
• Tory House of Lords Surrender	

3 [5.3] 1832 • Which industrial cities were granted MPs, and why did workers call the Act the "Great Betrayal"?

• Manchester, Birmingham & Leeds MPs	
• Ten-Pound Property Qualification	
• Deliberate Working-Class Exclusion	

4 [5.4] 1838–1848 • How did the Chartist movement unite millions of workers behind the Six Points?

• Universal Male Suffrage & Secret Ballot	
• Abolition of Property Requirements	
• Three Mammoth Rejected Petitions	

5 [5.5] 1872 • How did the 1872 Secret Ballot Act at Pontefract destroy landlord political coercion?

• Abolition of Public Hustings	
• Private Booths & Liquorice Wax Seals	
• Freedom from Landlord Eviction	

Before 1832, Old Sarum was an empty mound that sent two MPs to Parliament, while industrial Manchester had zero.

Question 3: Evaluative Statement Essay [12 marks • 15 mins]

EXTENDED WRITING PRACTICE

"The 1832 Great Reform Act was passed because the ruling aristocracy feared violent revolution, rather than from a desire for democratic justice." How far do you agree with this statement? Explain your answer. [12 marks]

Stimulus: **The burning of Bristol and the "Days of May" run on the Bank of England (1831–1832)** | **Earl Grey's £10 property qualification deliberately excluding the working class** *(You must also use information of your own)*

ANALYTICAL CONNECTIVES:

A central argument is that... • In particular, this mattered because... • On the other hand, an alternative perspective is... • In conclusion, the decisive reason was...

KEY VOCABULARY BANK:

Earl Grey • Great Reform Act (1832) • rotten boroughs • Old Sarum • Manchester & Birmingham • £10 property qualification • Bristol riots • Days of May • People's Charter • Secret Ballot (1872)

Task: *Using the vocabulary and connectives above, write your analytical response below:*

🎨 **CENTREFOLD SKETCH CHALLENGES 6 & 8 • LIVING TIMELINE DUAL-CODING**

TURN TO CENTREFOLD (PAGES 8–9) →

Milestone 6 (The 1832 Great Reform Act): Sketch Earl Grey presenting the new parliamentary map granting seats to industrial Manchester while rotten boroughs are erased [📜 1832 Reform Act roll • 🏭 Manchester textile chimney • 🏛️ Westminster chamber].

Milestone 8 (The Secret Ballot Act at Pontefract • 1872): Sketch a working man privately dropping a folded paper into a locked ballot box sealed with red wax [🗳️ locked metal ballot box • 👤 voter inside wooden privacy booth • 🔴 liquorice wax seal].

TEACHER CHECK • DISCIPLINARY LEVEL: **[ ] Emerging** **[ ] Developing** **[ ] Secure** **[ ] Greater Depth**

YEAR 8 STANDARDS

EMERGING (1–2)	EMERGING+ (3)	EXPECTED (4–5)	EXPECTED+ (6–7)	GREATER DEPTH (8–9)
Recalls key historical narrative facts; describes basic industrial events using guided sentence starters.	Identifies reasons for events; begins to describe causes of industrialisation, urban slums, and democratic protest with structured paragraphs.	Explains multiple causes & consequences; writes structured causal paragraphs using precise dates, technical terms, and primary source details.	Analyses causal significance; evaluates competing historical interpretations and weighs counter-arguments with detailed primary evidence.	Sustained, nuanced evaluative judgement; synthesises technological innovation, human exploitation, and political struggle across 1750–1901.
Focus: *Add dates & key vocabulary.*	***Focus:*** *Explain *why*, not just *what*.*	***Focus:*** *Compare relative importance.*	***Focus:*** *Sustained historical criteria.*	***Focus:*** *Nuanced historical judgement.*
