Chronological Anchors

- Nov 1977: Anwar Sadat makes historic direct flight to Jerusalem, addressing Knesset with "No more war".
- Dec 1977: Menachem Begin makes reciprocal visit to Ismailia, but bilateral negotiations stall over Sinai settlements.

Round 3: The Planning Engine Room · Causal Architecture (Plan here, write on Page 11)

ROUND 3: ENGINE ROOM

1. 4-Mark Consequence Planning Grid: Explain one consequence of the Israel-Jordan peace treaty (1994).

Point (Sentence 1)	2-3 Specific Historical Facts (AO1)	Causal Link to Outcome (AO2)
One consequence was that it normalized diplomatic, trade, and water-sharing relations between Israel and its second Arab neighbour.	Signed by Yitzhak Rabin and King Hussein in the Arava desert on 26 October 1994, resolving border and water disputes along the Jordan and Yarmouk rivers.	Israel recognized Jordan's special historic role as custodian of Muslim holy shrines in Jerusalem, securing Israel's longest land border and strengthening the pro-Western moderate bloc in the region.

2. 8-Mark Importance Planning Grid: Explain the importance of the oil crisis (1973) for the involvement of the USA in the Middle East.

Core Factor	Factual Information (Names, Dates, Treaties)	Direct Link to Named Outcome
The OPEC oil embargo demonstrated that Middle Eastern instability directly threatened the domestic economic security of the United States.	OAPEC cut oil production and placed a total embargo on petroleum exports to the US in response to Nixon's \$2.2bn military airlift to Israel, quadrupling world oil prices and causing fuel shortages and inflation.	This forced US Secretary of State Henry Kissinger to abandon passive diplomacy and launch intense "shuttle diplomacy" between Cairo, Damascus, and Tel Aviv, establishing Washington as the dominant mediator.

3. 8-Mark Narrative Storyboard Grid: Write a narrative account analysing changing superpower policies in the Middle East from the Gulf War (1991) to the Oslo Accords (1993).

Stage 1: Catalyst / Outbreak	Stage 2: Decisive Pivot	Stage 3: Climax & Outcome
The 1991 Gulf War saw the US lead an international coalition including Arab states (Egypt, Syria) to liberate Kuwait, while Arafat backed Saddam Hussein, severely isolating the PLO financially.	The collapse of the Soviet Union left the USA as the sole global superpower, ending Moscow's financial and military backing for Arab client states and bringing 400,000 Soviet Jewish immigrants to Israel.	Exploiting this unipolar moment, President George H.W. Bush convened the 1991 Madrid Conference; when official bilateral talks stalled, Israel and the weakened PLO initiated secret talks in Oslo.
