Instructions: As you study each enquiry lesson, complete the timeline missions by sketching and annotating in the corresponding Key Topic boxes below.

NOV 1917 • The Balfour Declaration & Contradictory British Promises

Key Topic 1.1

British Foreign Secretary Arthur Balfour writes to Lord Rothschild promising British support for the establishment of a "national home for the Jewish people" in Palestine. This directly contradicts Britain's 1915 pledge to Sharif Hussein of Mecca and the secret 1916 Sykes-Picot Agreement dividing the Middle East with France.

JULY 1946 • The Bombing of the King David Hotel, Jerusalem

Key Topic 1.2

Disguised as milkmen, militants from the Zionist paramilitary group Irgun, led by Menachem Begin, detonate 350kg of explosives in the basement of the King David Hotel. The blast collapses the entire south-west wing housing British military headquarters, killing 91 British, Arab, and Jewish staff.

NOV 1947 • UN Resolution 181 (The Palestine Partition Plan)

Key Topic 1.3

The United Nations General Assembly votes 33 to 13 to terminate the British Mandate and partition Palestine into separate Arab and Jewish states, with Jerusalem placed under international United Nations trusteeship. The Jewish Agency accepts; all Arab nations reject the plan, triggering civil war.

LIVING TIMELINE • PART 2: STATEHOOD, THE NAKBA & THE SUEZ CRISIS (1948–1956)

Instructions: Complete sketches and dual-coding annotations for the war of independence, the displacement of Palestinians, and the 1956 Suez Crisis.

MAY 1948 • Declaration of Independence & The 1948–49 Arab-Israeli War

Key Topic 1.3

On 14 May 1948, David Ben-Gurion proclaims the State of Israel as British forces complete their evacuation. The next day, five Arab states (Egypt, Transjordan, Syria, Iraq, Lebanon) invade. Israel survives initial assaults, re-arms during the June UN truce via Czechoslovakia, and signs armistices along the 1949 Green Line.

1948–1950 • The Palestinian Refugee Crisis (Al-Nakba) & Law of Return

Key Topic 1.4

Approximately 700,000 Palestinian Arabs are displaced into permanent exile (Al-Nakba), supported by the newly formed UNRWA in Gaza, the West Bank, Lebanon, and Syria. Simultaneously, Israel passes the 1950 Law of Return, absorbing over 680,000 Holocaust survivors and Mizrahi Jewish refugees from Arab lands.

OCT–NOV 1956 • The Suez Crisis & The Protocol of Sèvres

Key Topic 1.5

Following Nasser's nationalisation of the Suez Canal, Britain, France, and Israel secretly sign the Protocol of Sèvres. Israel invades the Sinai on 29 October; Britain and France intervene to "separate the combatants" and seize the canal. US financial ultimatums force a humiliating Anglo-French withdrawal, leaving UNEF peacekeepers in Sinai.

KEY TOPIC 1 CARTOGRAPHIC MASTERCLASS • PARTITION & SUEZ (1947–1956)

Geographical Disciplinary Evidence

1. THE 1949 RHODES ARMISTICE GREEN LINE

MAP ARCHIVE

From the 1947 UN Resolution 181 partition proposal to the 1949 Armistice borders and the Nakba:

- **UN Resolution 181 (1947):** Allocated 55% to Jewish state, 44% to Arab state, Jerusalem designated an international UN zone.
- **1948–49 War Outcome:** Israel expanded to secure 79% of Mandate Palestine; Transjordan annexed West Bank; Egypt held Gaza.
- **The Nakba (1948):** 700,000+ Palestinian Arabs displaced; armistice demarcation drawn in green pencil at Rhodes (Green Line).

2. THE 1956 SUEZ CRISIS • SINAI CONQUEST

CAMPAIGN ARCHIVE

Operation Kadesh, the secret Protocol of Sèvres collusion, and the Anglo-French Port Said landings:

- **Protocol of Sèvres:** Secret collusion between Britain, France, and Israel to seize the canal and overthrow President Nasser.
- **100-Hour Blitzkrieg:** Moshe Dayan's IDF swept across Sinai in 100 hours; 202nd Paratroopers dropped at Mitla Pass; took Sharm el-Sheikh.
- **Superpower Intervention:** US President Eisenhower forced Allied withdrawal via financial pressure; UNEF deployed to Sinai.

CARTOGRAPHIC DISCIPLINARY INSIGHT: HOW DID BORDERS & STRATEGIC MARITIME CHOKEPOINTS FUEL CONFLICT?

The armistice boundaries of 1949 created extreme strategic vulnerability: Israel's coastal waist near Tel Aviv was only 9 miles wide, while over 700,000 displaced Palestinians were confined to crowded refugee enclaves in Gaza and the West Bank without sovereignty. Simultaneously, critical maritime waterways—the Suez Canal and the Straits of Tiran at Sharm el-Sheikh—became geopolitical flashpoints. Nasser's blockade of Israeli shipping directly precipitated the 1956 invasion, demonstrating how geography and maritime access dictated the rhythm of regional warfare.

[P] POINT

Directly state the consequence using exact question phrasing.

[F] FACT

Provide precise historical evidence (exact dates, figures, casualties, names).

[C] CONSEQUENCE

Explain the long-term causal impact on regional tension or conflict.

2. HIGH-YIELD CAUSAL CONNECTIVES & BAND 4 EVALUATIVE CRITERIA

Analytical Causal Connectives:

- "Consequently, this fundamentally shifted..."
- "In direct reaction to this humiliation, Nasser..."
- "Crucially, this created an unresolvable deadlock because..."
- "This directly resulted in the military turning point whereby..."

Band 4 Evaluative Criteria Prompts:

- **Scale & Permanence:** Did this alter borders permanently (e.g. 1949 Green Line)?
- **Superpower Influence:** How did US or Soviet intervention dictate the outcome?
- **Demographic Impact:** How did displacement (Nakba) prevent diplomatic recognition?
- **Strategic Supremacy:** How did military factors overpower political agreements?

3. ANNOTATED GRADE 9 MODEL ANSWER • Q3: EXPLAIN IMPORTANCE [8 MARKS]

EXAMINER MARKS: 8/8 (BAND 4)

Question: Explain the importance of the bombing of the King David Hotel (July 1946) for the British decision to withdraw from Palestine.

Aspect 1 (Military & Administrative Destruction): The bombing of the King David Hotel on 22 July 1946 was of paramount importance because it directly crippled British military and civil administration in Mandatory Palestine. Militants from Menachem Begin's Irgun smuggled 350kg of explosives into the basement disguised as milk churns, detonating the entire south-west wing and killing 91 British, Arab, and Jewish staff. Crucially, this eradicated the central archives, intelligence registries, and senior command infrastructure of the British Secretariat. Consequently, the British army was forced into defensive, fortified enclaves ("Bevingrads"), demonstrating that Britain could no longer maintain basic law and order against determined Jewish insurgent militias.

Aspect 2 (Domestic Political & Financial Exhaustion): Furthermore, the bombing was decisively important in shattering British political resolve at home. Prime Minister Clement Attlee's postwar Labour government was financially bankrupt, rationing bread, and struggling under £3 billion of wartime debt while deploying 100,000 soldiers to Palestine. The public spectacle of British soldiers dying in a thankless imperial conflict triggered ferocious parliamentary and media backlash, crystallised by the execution of two British intelligence sergeants in retaliation for Irgun hangings in 1947. In direct reaction to this unsustainable financial drain and domestic fury, Foreign Secretary Ernest Bevin announced in February 1947 that Britain would abandon the Mandate and surrender the entire problem to the United Nations without enforcing a partition.

• Detailed historical facts: 22 July 1946, 350kg TNT, 91 deaths, Menachem Begin, 100,000 troops.

• Analytical focus: Direct link to Attlee's February 1947 UN surrender.
