RESTRICTED ACCESS - MASTER YOUR MEMORY

How to Hack Your Memory

(Rules of Engagement)

1. Never Just Read

Reading the answers feels like learning, but it's an illusion. You must force your brain to struggle to find the answer. The struggle is what builds memory pathways.

2. Cover, Recall, Check

Cover the answer sheet. Write your answer down in the notes section (or say it out loud). Only then are you allowed to check 'The Vault'.

3. Track Your Threat Level

Use the R-A-G (Red, Amber, Green) checkboxes next to every question after you attempt it.

- 🟩 **Green:** I nailed it instantly.
- 🟨 **Amber:** I got it, but I had to think hard.
- 🟥 **Red:** My mind went blank. (Revisit these tomorrow).

4. The Interrogation (Homework Protocol)

True mastery requires testing under pressure. Hand 'The Vault' (answers) to your parent or guardian. They will test you on 20 random questions. They hold the score; they hold the signature.

5. The 3-Star Parent Effort Rubric

When authenticating your spaced retrieval practice on the final Mastery Tracker, your parent or guardian will evaluate your effort using the following criteria:

- ⭐ ⭐ ⭐ **3 Stars (Full Mastery):** Completed under strict exam conditions without glancing at notes or the Knowledge Vault. Total independent recall.
- ⭐ ⭐ **2 Stars (Consolidating):** Required 1–2 hints from the Knowledge Vault, but demonstrated sound foundational understanding.
- ⭐ **1 Star (Needs Intervention):** Rushed, mind went blank, or completed with notes open. Target facts must be hunted down and re-tested tomorrow.
