

KS3: Water and Sanitation Through Time

"Why did it take so long to clean up Britain?"

MASTERY PACK: COMPLETE UNIT MASTERY

Operative / Student Name: _____

Target: Total Recall of 45 Crucial Questions

RESTRICTED ACCESS - MASTER YOUR MEMORY

How to Hack Your Memory

(Rules of Engagement)

1. Never Just Read

Reading the answers feels like learning, but it's an illusion. You must force your brain to struggle to find the answer. The struggle is what builds memory pathways.

2. Cover, Recall, Check

Cover the answer sheet. Write your answer down in the notes section (or say it out loud). Only then are you allowed to check 'The Vault'.

3. Track Your Threat Level

Use the R-A-G (Red, Amber, Green) checkboxes next to every question after you attempt it.

-  **Green:** I nailed it instantly.
-  **Amber:** I got it, but I had to think hard.
-  **Red:** My mind went blank. (Revisit these tomorrow).

4. The Interrogation (Homework Protocol)

True mastery requires testing under pressure. Hand 'The Vault' (answers) to your parent or guardian. They will test you on 20 random questions. They hold the score; they hold the signature.

How much progress did the Romans make in public health?

Q#	The Target Question	R	A	G	Notes / My Answer
1	Why was digging cesspits in the Iron Age a hygienic way to manage waste?	☐	☐	☐	
2	What technology did Roman engineers use to bring fresh water over miles into British towns?	☐	☐	☐	
3	Where did Roman soldiers sit side-by-side over water-flushed latrine channels?	☐	☐	☐	
4	What did Roman soldiers use to wipe themselves in communal latrines?	☐	☐	☐	
5	What does AD stand for in historical dates?	☐	☐	☐	
6	What century is the year 1066 in?	☐	☐	☐	
7	Which ancient empire conquered Britain and built Hadrian's Wall?	☐	☐	☐	
8	What does the word 'Sanitation' mean?	☐	☐	☐	
9	What is a primary source?	☐	☐	☐	
10	What did Roman bathers experience inside a bathhouse like Bearsden?	☐	☐	☐	
11	Why did medieval villages like Wharram Percy avoid major public health crises despite using simple cesspits?	☐	☐	☐	
12	On the twelfth-century plans of Canterbury Priory, what did the red lines represent?	☐	☐	☐	
13	How did poorer townspeople get their fresh water if they did not own a private well?	☐	☐	☐	

Q#	The Target Question	R	A	G	Notes / My Answer
14	How did the Romans transport massive amounts of fresh water?	☐	☐	☐	
15	What did the Romans use to flush their public toilets?	☐	☐	☐	
16	Why did the Roman army need to stay healthy?	☐	☐	☐	
17	What did the Romans build in their forts to treat sick soldiers?	☐	☐	☐	
18	Did the Romans understand bacteria?	☐	☐	☐	
19	What material did archaeologists discover in medieval cesspits that shows how villagers wiped themselves?	☐	☐	☐	
20	Why did medieval 'gongfarmers' perform their job exclusively under the cover of darkness?	☐	☐	☐

THE VAULT

Restricted Access: Answer Keys

How much progress did the Romans make in public health?

1. Roundhouse settlements were spread out and temporary pits kept waste away from springs
2. Stone channels called conduits that utilized the natural pull of gravity
3. Housesteads Fort on Hadrian's Wall
4. A wet sponge attached to the end of a shared wooden stick
5. Anno Domini (the year of our Lord).
6. The 11th Century.
7. The Romans.
8. Conditions relating to public health, especially clean drinking water and sewage disposal.
9. Evidence that was created at the time of the event.
10. Washing in sequence through cold, warm, and hot rooms
11. The low population density meant waste did not build up enough to contaminate water supplies
12. Pipes carrying dirty waste water away to flush the toilets
13. They bought it from water sellers who hauled river water in barrels
14. Aqueducts.
15. Running water from the aqueducts and bathhouses.
16. To march and fight efficiently across the Empire.
17. Hospitals (Valetudinaria).
18. No, they just knew bad smells or swamps were linked to illness.
19. Wild moss
20. To avoid disrupting the busy town streets with terrible smells and waste carts

To what extent did towns become filthier during the Early Modern period?

21. The population grew rapidly, putting too much pressure on crowded town systems
22. Samuel Pepys
23. They were overcrowded, with cesspits leaking into drinking wells.
24. A medieval worker who cleared human waste from cesspits at night.
25. They believed cleanliness brought them closer to God.
26. A pit for the disposal of liquid waste and sewage.

27. The removal of filth from London's streets to prevent sickness.
28. Sir John Harington
29. Houses lacked running piped water and connections to street sewers
30. Transporting river water in large barrels on horseback to sell to homes
31. It skyrocketed from 6 million to 21 million.
32. Population growth outpaced the ability to dispose of waste.
33. John Harington.
34. There were no underground sewers to connect it to.
35. The increase in the proportion of people living in towns and cities.
36. Buying it from water sellers or sharing local pumps.
37. From a shared pump in the street or yard that only ran for a few hours.
38. Cholera
39. Miasma Theory (the belief that disease is spread by bad smells)
40. Landlords refused to pay for them to be emptied, and they were not connected to sewers.

Why did it take the 'Great Stink' to finally clean up Britain's streets?

41. The government's belief that it shouldn't interfere in people's daily lives or public health.
42. Cholera.
43. Miasma Theory (bad smells).
44. By mapping the deaths around the Broad Street water pump.
45. Edwin Chadwick.
