PUPIL NAME: _____ CLASS: _____ TEACHER: _____

YEAR 8 ENQUIRY • 1750–1901

Industrialisation, Empire & Power: 1750–1901

Energy, Exploitation, Democracy & Global Supremacy

PRIMARY VISUAL EVIDENCE • INDUSTRIAL SUBLIME — Philip James de Loutherbourg, RA (1801)

In 1801, Philip James de Loutherbourg captured the Madeley Wood (Bedlam) ironworks in Coalbrookdale, Shropshire. Depicting the blazing coke blast furnaces illuminating the nighttime sky, the painting stands as the definitive visual monument of Britain's dawn as the world's first industrial superpower:

1. BLAZING COKE BLAST FURNACES:
Violent orange and crimson flames erupt from open furnace tops, symbolising the substitution of timber by coal and coke smelting.

2. CHOKING PLUMES & NOCTURNAL SKY:
Dense billowing black smoke obscures the moonlit sky, capturing the dramatic Sublime power and environmental reality of heavy industry.

3. CAST ENGINE BOILERS & SLAG:
Foreground heaps of newly cast cylindrical steam engine boilers, pipes, and cooling slag illustrate mass metallurgical production.

4. HORSE CARTER & MUSCLE POWER:
A carter guiding workhorses hauling goods highlights the historic threshold between organic animal labor and mechanized steam power.

FOSSIL & STEAM	METALLURGY	CLASS STRUGGLE
Coal, coke smelting & Watt's rotary steam engines.	Cort's puddling & rolling at Funtley transforming iron.	Swing Riots, child labour & the fight for democracy.

DISCIPLINARY SIGNIFICANCE: Loutherbourg's masterpiece captures the Industrial Sublime—a fusion of awe and terror—symbolizing the dawn of an Anthropocene era in which human technological mastery eclipsed natural biological limits.

DISCIPLINARY HINGE QUESTION: HISTORICAL EVALUATION
Does Loutherbourg depict Coalbrookdale as an apocalyptic vision of hell and human suffering, or as a heroic celebration of British technological mastery and industrial progress?

Primary Visual Evidence: *Coalbrookdale by Night* (1801) • Philip James de Loutherbourg, RA — SCIENCE MUSEUM, LONDON • OBJECT NO. 1952-452 • OIL ON CANVAS (68 × 107 CM)

1. CHRONOLOGICAL SPINES [ENQUIRIES 1–5]
Structured chronological note-taking on each left page: 5 causal stages guiding pupil understanding as the teacher narrates the history.

2. DISCIPLINARY WRITING PRACTICE [4M, 8M, 12M]
Targeted extended writing on each right page: causal explanation, narrative account, difference, and evaluative statement essay.

3. CENTREFOLD TIMELINE & NOTES PORTFOLIO
Centrefold Living Timeline dual-coding sketchpads (pp. 8–9) and dedicated lined notes & essay planning pages (pp. 14–15).

COURSE SPECIFICATION • KEY ENQUIRY SEQUENCE	LEARNT	REVISED
Enquiry 1: The Iron & Steam Revolution: Henry Cort & Funtley Works *How did Henry Cort's breakthrough at Funtley Ironworks transform Britain into an industrial and naval superpower?*	☐	☐
Enquiry 2: The Dark Satanic Mills: Child Labour, Slums & Public Health *Was industrialisation a triumph of human progress or a catastrophe of urban suffering for the working class?*	☐	☐
Enquiry 3: Blood, Machines & Ballots: The Hampshire Swing Riots to Chartism *Why did British workers turn to machine-breaking and mass petitions to demand a political voice?*	☐	☐
Enquiry 4: Steam, Steel & Empire: HMS Warrior & The 1857 Indian Rebellion *How did industrial technology sustain the British Empire, and why did Indian soldiers rebel in 1857?*	☐	☐
Enquiry 5: The Victorian Verdict: Workshop of the World or Age of Exploitation? *Did the Industrial Revolution bring unprecedented progress or human catastrophe to the British people?*	☐	☐

How did Henry Cort's breakthrough at Funtley Ironworks transform Britain into an industrial and naval superpower?

Core Specification Focus: Energy transition from wood and charcoal to coal; James Watt's rotary steam engine (1769–1781); Henry Cort at Funtley Ironworks, Fareham (1775–1784); puddling furnace & grooved rolling mill; Admiralty naval trials at Portsmouth Royal Dockyard (1787); ending dependence on Baltic Orgrounds iron.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 [1.1] 1750–1770 • Why was Britain's early iron industry crippled by charcoal and timber shortages?

• **Deforestation of English Oaks**	
• **Brittle Impure Pig Iron**	
• **Dependence on Swedish Imports**	

2 [1.2] 1769–1781 • How did James Watt's rotary steam engine revolutionise heavy industrial manufacturing?

• **Separate Condenser Efficiency**	
• **Rotary Shaft Motion**	
• **Liberation from River Valleys**	

3 [1.3] 1775–1784 • How did Henry Cort's puddling furnace at Funtley chemically refine molten iron?

• **Reverberatory Furnace Chamber**	
• **Stirring Molten Decarburisation**	
• **Eliminating Harmful Sulphur**	

4 [1.4] 1783–1784 • Why were Cort's patented grooved rollers fifteen times faster than traditional trip hammers?

• **Mechanical Grooved Cylinders**	
• **Squeezing Out Slag Impurities**	
• **Uniform Naval Bar Production**	

5 [1.5] 1787 • How did the Portsmouth Dockyard naval trials confirm Cort's triumph for the Royal Navy?

• **Admiralty Smith Forge Tests**	
• **Shatter-Resistant Anchors**	
• **Complete Naval Independence**	

Fareham ironmaster Henry Cort produced the tough wrought iron that built the Royal Navy's fighting ships right here along the River Meon.

Question 2: Explain Why [12 marks • 15 mins]

EXTENDED WRITING PRACTICE

Explain why Henry Cort achieved his metallurgical breakthrough in wrought iron production at Funtley in 1784. [12 marks]

Stimulus: **The urgent naval demand for tough iron from Portsmouth Royal Dockyard** | **The innovative combination of the puddling furnace and grooved rollers** *(You must also use information of your own)*

ANALYTICAL CONNECTIVES:

To a large extent, it can be argued that... • In particular, a decisive factor was... • Furthermore, this created severe consequences because... • On the other hand, an alternative perspective is that... • In conclusion, the decisive reason why...

KEY VOCABULARY BANK:

Henry Cort • Funtley Ironworks • River Meon • puddling furnace • grooved rollers • wrought iron • Portsmouth Dockyard • Royal Navy • naval self-sufficiency

Task: *Using the vocabulary and connectives above, write your analytical response below:*

🎨 **CENTREFOLD SKETCH CHALLENGES 1 & 2 • LIVING TIMELINE DUAL-CODING**

TURN TO CENTREFOLD (PAGES 8–9) →

Milestone 1 (Funtley Puddling Furnace • 1784): Sketch ironworkers at Funtley stirring molten iron in Cort's reverberatory furnace beside the River Meon [🔥 reverberatory furnace • 🥄 puddling rod • 🌊 River Meon waterwheel].

Milestone 2 (Portsmouth Dockyard Naval Trials • 1787): Sketch Admiralty master smiths testing tough Funtley wrought iron anchors and mast hoops for the Royal Navy [⚓ heavy naval anchor • 🔨 blacksmith anvil • 🚢 warship at dockyard].

TEACHER CHECK • DISCIPLINARY LEVEL: **[ ] Emerging** **[ ] Developing** **[ ] Secure** **[ ] Greater Depth**

Was industrialisation a triumph of human progress or a catastrophe of urban suffering for the working class?

Core Specification Focus: Factory system; factory clock & fines; child labour in textile mills & coal mines; 1832 Sadler Committee; Matthew Crabtree testimony; rapid urban growth & back-to-back housing; cholera epidemics (1831–1854); Edwin Chadwick's 1842 Report; 1858 Great Stink & Joseph Bazalgette's London sewer network.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 [2.1] 1780–1820 • How did the factory clock and machine discipline destroy traditional working rhythms?

• **Fourteen-Hour Work Days**	
• **Draconian Lateness Fines**	
• **Choking Fibres and Dust**	

2 [2.2] 1832 • What shocking abuses of child labour were exposed by the parliamentary Sadler Committee?

• **Crawling Under Fast Looms**	
• **Corporal Strap Punishment**	
• **Physical Stunting and Deformity**	

3 [2.3] 1800–1840 • How did explosive urban growth create deadly back-to-back slums and cellar dwellings?

• **Shared Privy Contamination**	
• **Accumulating Human Waste Heaps**	
• **Flooded Cellar Basements**	

4 [2.4] 1831–1842 • Why did devastating cholera epidemics shatter the laissez-faire belief in minimal government?

• **Waterborne Dehydration Fatalities**	
• **Sudden Twelve-Hour Collapse**	
• **Chadwick Sanitary Intervention**	

5 [2.5] 1858–1865 • How did the 1858 Great Stink force Parliament to construct modern underground sewers?

• **Midsummer Thames Fermentation**	
• **Commons Chloride Curtains**	
• **Bazalgette Interceptor Tunnels**	

During the 1832 cholera epidemic, life expectancy for labourers in industrial Manchester dropped to just 19 years.

Question 1: Describe Two Features [4 marks • 5 mins]

FEATURE DRILL

Describe two features of working conditions for child labourers in Victorian textile mills. [4 marks]

One key feature was... • Specifically, this involved... • A second key feature was... • For example, this meant that...

Question 2: Explain One Consequence [4 marks • 5 mins]

STRUCTURED WRITING

Explain one consequence of the 1858 Great Stink for public health in Victorian London. [4 marks]

Analytical Connectives: *A significant consequence was... • For instance, this meant that... • This directly led to... • Consequently, the overall outcome was...*
Sentence Stems: One consequence was that... • Specifically, this meant that... • This affected public health because... • As a result, waterborne disease...
Key Terms: Great Stink (1858) • River Thames • Joseph Bazalgette • interceptor sewers • cholera • Edwin Chadwick • public health

CENTREFOLD SKETCH CHALLENGE 4

Turn to Centrefold • Pages 8–9 →

Milestone 4 (The Sadler Committee on Child Labour • 1832): Sketch young piecers crawling beneath spinning mules while parliamentary commissioners record child testimonies [textile spinning mule • child piecer crawling • parliamentary report ledger].

TEACHER CHECK • DISCIPLINARY LEVEL: [ ] Emerging [ ] Developing [ ] Secure [ ] Greater Depth

Why did British workers turn to machine-breaking and mass petitions to demand a political voice?

Core Specification Focus: Post-Napoleonic distress; Peterloo Massacre (1819); Six Acts; 1830 Hampshire Swing Riots (Meon Valley, Selborne, Headley, Fareham); threshing machine destruction; Winchester Special Assizes trials & penal transportation; 1832 Great Reform Act; 1834 Tolpuddle Martyrs; 1838 People's Charter; Moral vs Physical Force Chartism; 1839 Newport Rising.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 [3.1] 1819 • Why did the Peterloo Massacre ignite widespread working-class outrage?

• **Peaceful St Peter's Field Crowd**	
• **Magistrate Cavalry Sabre Charge**	
• **Trampled Reform Protesters**	

2 [3.2] Nov 1830 • How did the "Captain Swing" riots sweep through Hampshire and the Meon Valley?

• **Starvation Winter Destitution**	
• **Sledgehammer Threshing Destruction**	
• **Nocturnal Hayrick Arson**	

3 [3.3] Dec 1830 • How brutally did the Winchester Special Assizes punish Hampshire machine-breakers?

• **Winchester Great Hall Trials**	
• **Australian Penal Transportation**	
• **Micheldever Ploughboy Execution**	

4 [3.4] 1832 • Why was the 1832 Great Reform Act condemned as a betrayal of working men?

• **Disenfranchised Rotten Boroughs**	
• **Ten-Pound Property Threshold**	
• **Working-Class Disenfranchisement**	

5 [3.5] 1838–1848 • How did the Chartist movement mobilize millions to demand universal democracy?

• **Six-Point Democratic Charter**	
• **Million-Signature Monster Petitions**	
• **State Troops Guarding Westminster**	

At the 1830 Winchester Assizes, 19-year-old Henry Cook of Micheldever was hanged for striking a magistrate's hat during the Swing Riots.

Question 2: Narrative Account [8 marks • 10 mins]

PART A • NARRATIVE

Write a narrative account analysing the key events leading from the Peterloo Massacre (1819) and Hampshire Swing Riots (1830) to the publication of the People's Charter (1838). [8 marks]

undefined

Question 3: Explain Importance [8 marks • 10 mins]

PART B • IMPORTANCE

Explain the importance of the Hampshire Swing Riots (1830) and the Chartist movement for the growth of working-class democracy in 19th-century Britain. [8 marks]

Analytical Connectives: *This was of vital importance because... • Prior to this development, the situation had been... • As a result of this action, the response was... • Consequently, the long-term impact was...*
Key Terms: Captain Swing • Meon Valley • machine-breaking • Winchester Assizes • universal male suffrage • secret ballot • working-class solidarity

🎨 CENTREFOLD SKETCH CHALLENGES 3 & 5

Turn to Centrefold • Pages 8–9 →

Milestone 3 (The Hampshire Swing Riots • 1830): Sketch farm labourers with sledgehammers breaking a wooden threshing machine beside a Hampshire barn [🔨 heavy sledgehammer • 🌾 shattered threshing drum • ✉️ threatening "Swing" letter].
Milestone 5 (The People's Charter • 1838): Sketch William Lovett presenting the six-point People's Charter petition roll to a crowd of industrial workers [📜 six-point charter petition • 👥 assembled crowd of factory workers • ⬛ secret ballot box].

TEACHER CHECK • DISCIPLINARY LEVEL: **[ ] Emerging** **[ ] Developing** **[ ] Secure** **[ ] Greater Depth**

Although Parliament rejected all three Chartist petitions, five of the Six Points eventually became British law.

LIVING TIMELINE • PART 1: METALLURGY, MACHINE POWER & AGRARIAN REVOLT (1784–1832)

Living Timeline Dual-Coding Protocol: Complete each milestone sketchpad using dual-coding (combining visual storytelling symbols, causal arrows, and dates) to master the chronological spine across the centre-fold.

1784 • Henry Cort Patented Puddling at Funtley Ironworks

Enquiry 1

Fareham ironmaster Henry Cort invents the reverberatory puddling furnace and grooved rolling mill along the River Meon, enabling Britain to produce tough naval wrought iron from domestic coal and ending reliance on Baltic imports.

1787 • Portsmouth Royal Dockyard Naval Trials

Enquiry 1

Admiralty master smiths at Portsmouth Dockyard conduct rigorous metallurgical tests on Funtley iron, proving it fully equal to Swedish Orgrounds iron for ship anchors, mast hoops, and naval fittings for the Royal Navy.

1830 • The Hampshire "Captain Swing" Riots

Enquiry 3

Starving farm labourers in the Meon Valley, Selborne, and Fareham smash threshing machines and burn ricks under the mythical name "Captain Swing"; the Winchester Assizes sentences 101 men to penal transportation to Australia.

1832 • The Sadler Committee on Child Labour

Enquiry 2

Michael Sadler’s parliamentary committee publishes horrifying eyewitness testimony of 14-hour days, physical beatings, and crippling injuries suffered by child piecers and scavengers in northern textile mills, spurring the Factory Acts.

Centrefold timeline: Dual-coding sketches and dates turns narrative history into permanent long-term memory.

LIVING TIMELINE • PART 2: REFORM, REBELLION & IRONCLAD SUPREMACY (1838–1860)

Living Timeline Dual-Coding Protocol: Complete each milestone sketchpad using dual-coding (combining visual storytelling symbols, causal arrows, and dates) to master the chronological spine across the centre-fold.

1838 • The People’s Charter & Chartist Petitions

Enquiry 3

William Lovett and the London Working Men’s Association publish the People’s Charter demanding six points: universal male suffrage, secret ballots, equal constituencies, and salaries for MPs; uniting millions of industrial workers.

1851 • The Great Exhibition at Crystal Palace

Enquiry 5

Prince Albert opens the monumental glass-and-iron Crystal Palace in Hyde Park; six million visitors marvel at steam engines, machine tools, and imperial exhibits, proclaiming Victorian Britain the "Workshop of the World".

1857 • The Indian Rebellion & End of Company Rule

Enquiry 4

Indian sepoys at Meerut mutiny over greased cartridges and corporate exploitation, spreading rebellion across northern India; Parliament abolishes the East India Company in 1858 and establishes direct British Crown rule (The Raj).

1860 • Launch of HMS Warrior at Portsmouth

Enquiry 4

Britain launches the world’s first all-iron-hulled, armoured warship at Portsmouth Historic Dockyard; powered by steam and Cort’s wrought iron armour, HMS Warrior renders all existing wooden navies instantaneously obsolete.

How did industrial technology sustain the British Empire, and why did Indian soldiers rebel in 1857?

Core Specification Focus: British imperial expansion; East India Company corporate rule; doctrine of lapse; 1857 Indian Rebellion (First War of Independence); greased Enfield cartridges; Meerut outbreak; Rani Lakshmibai of Jhansi; 1858 Government of India Act (The British Raj); steam power, telegraph cables & railways; 1860 HMS Warrior at Portsmouth Royal Dockyard.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 [4.1] 1757–1850 • How did the East India Company transform from commercial merchants into imperial rulers?

• **Chartered Corporate Monopolies**	
• **Doctrine of Lapse Annexations**	
• **Mercenary Sepoy Armed Subjugation**	

2 [4.2] May 1857 • Why did greased cartridges spark the spontaneous rebellion at Meerut?

• **Animal Fat Rifle Envelopes**	
• **Religious Desecration Fears**	
• **Meerut Cantonment Mutiny**	

3 [4.3] 1857–1858 • How did the rebellion spread and how did Rani of Jhansi resist British forces?

• **Northern Gangetic Plain Uprising**	
• **Jhansi Armed Fortress Resistance**	
• **Cavalry Martyrdom in Battle**	

4 [4.4] 1858 • Why did the rebellion force Parliament to dismantle the East India Company and declare the British Raj?

• **Dissolution of Corporate Rule**	
• **Government of India Act**	
• **Direct Crown Imperial Governance**	

5 [4.5] 1860 • How did HMS Warrior at Portsmouth Dockyard demonstrate unbeatable British naval dominance?

• **Armoured Ironclads in the Solent**	
• **High-Speed Rotary Steam Propulsion**	
• **Deterrence of Foreign European Fleets**	

HMS Warrior at Portsmouth was so heavily armoured and fast that no enemy warship in the world ever dared fire a single shot at her.

Question 3(b) & 3(c): Contrasting Interpretations [8 marks • 10 mins]

HISTORIOGRAPHICAL ANALYSIS

INTERPRETATION 1 • HISTORIAN NIALL FERGUSON, EMPIRE: HOW BRITAIN MADE THE MODERN WORLD (2003)

"The British Empire was the pioneer of global modernization. By constructing railways, telegraph networks, steamship routes, and establishing common law, Britain brought governance, modern infrastructure, and global trade to a quarter of the world's population. Without the Pax Britannica, the globalization of free markets and technology would have been delayed by generations."

INTERPRETATION 2 • HISTORIAN SHASHI THAROOR, INGLORIOUS EMPIRE: WHAT THE BRITISH DID TO INDIA (2017)

"British rule was not a philanthropic modernization project; it was ruthless economic extraction enforced by military terror. India's share of the global economy fell from 27% to under 3% under British rule, as indigenous textile weaving was destroyed to serve British cotton mills. The railways were built not to benefit Indians, but to rush British troops to quell rebellions and extract raw commodities to ports."

Explain how Interpretations 1 and 2 differ on the motives and consequences of the British Empire. [4 marks]

Interpretations 1 and 2 differ on... • Interpretation 1 portrays the British Empire as... • In contrast, Interpretation 2 argues that British rule was...

Suggest one reason why Interpretations 1 and 2 differ on British imperial rule. [4 marks]

Scaffolded Sentence Stems: One reason why Interpretations 1 and 2 differ is because of the authors' distinct historical perspectives and selection of evidence... • Specifically, the author of Interpretation 1 emphasizes... whereas the author of Interpretation 2 focuses upon... • Consequently, their conclusions differ because...

CENTREFOLD SKETCH CHALLENGES 7 & 8

Turn to Centrefold • Pages 8–9 →

Milestone 7 (The 1857 Indian Rebellion at Meerut): Sketch sepoys breaking open the ammunition depot at Meerut refusing greased rifle cartridges [Enfield rifle & cartridge • sepoy rebel standard • Meerut cantonment gates].

Milestone 8 (HMS Warrior at Portsmouth • 1860): Sketch the black ironclad hull and steam-funnel of HMS Warrior sailing into the Solent off Portsmouth [iron-hulled warship HMS Warrior • steam engine smokestack • Solent waves].

TEACHER CHECK • DISCIPLINARY LEVEL: **[ ] Emerging** **[ ] Developing** **[ ] Secure** **[ ] Greater Depth**

Did the Industrial Revolution bring unprecedented progress or human catastrophe to the British people?

Core Specification Focus: 1851 Great Exhibition at Crystal Palace; Prince Albert & industrial prestige; British railway boom (Brunel & Stephenson); rise of the middle class; enduring poverty & Charles Booth's London poverty maps (1889); Factory Acts & trade unions; synoptic evaluation of industrial capitalism.

CHRONOLOGICAL INQUIRY SPINE • CORE CAUSAL NARRATIVE *Construct your causal explanation for each stage incorporating the core trigger terms*

1 [5.1] 1851 • How did the 1851 Great Exhibition proclaim Britain "Workshop of the World"?

• **Cast Iron and Glass Crystal Palace**	
• **Six Million Astonished Spectators**	
• **Steam Locomotives and Machine Tools**	

2 [5.2] 1840–1880 • How did the railway boom transform British commerce, landscape, and society?

• **Nationwide Permanent Iron Rails**	
• **Perishable Goods Rapid Transit**	
• **Greenwich Standard Railway Time**	

3 [5.3] 1860–1890 • How did the rise of the Victorian middle class reshape wealth and social power?

• **Manufacturing Bourgeois Wealth**	
• **Suburban Villas and Domestic Staff**	
• **Displacement of Landed Aristocracy**	

4 [5.4] 1889 • How did Charles Booth's poverty maps expose persistent deprivation in Victorian London?

• **Empirical Door-to-Door Social Survey**	
• **Black-Striped Chronic Poverty Maps**	
• **Thirty-Percent Squalor Reality**	

5 [5.5] 1750–1901 • The Victorian Verdict: How do historians judge the balance of progress versus human suffering?

• **Global Mass Manufactured Goods**	
• **Stunted Lifespans in Urban Smog**	
• **Statutory Factory Act Protections**	

At the 1851 Great Exhibition, six million people—a third of Britain's entire population—visited the Crystal Palace in London.

Question 5: Evaluative Statement Essay [12 marks • 15 mins]

EXTENDED WRITING PRACTICE

"The Industrial Revolution was a triumphant era of human progress and national prosperity for the British people." How far do you agree with this statement? Explain your answer. [12 marks]

Stimulus: **James Watt's steam engines, Cort's Funtley iron & the 1851 Great Exhibition** | **Child labour in textile mills, back-to-back slums & Charles Booth's poverty map** *(You must also use information of your own)*

ANALYTICAL CONNECTIVES:

To a large extent, it can be argued that... • In particular, a decisive factor was... • Furthermore, this created severe consequences because... • On the other hand, an alternative perspective is that... • In conclusion, the decisive reason why...

KEY VOCABULARY BANK:

Henry Cort • Funtley Ironworks • puddling furnace • steam power • Sadler Committee • back-to-back slums • cholera • Great Exhibition • Charles Booth • Standard of Living debate

Task: *Using the vocabulary and connectives above, write your analytical response below:*

CENTREFOLD SKETCH CHALLENGE 6 • LIVING TIMELINE DUAL-CODING

TURN TO CENTREFOLD (PAGES 8–9) →

Milestone 6 (The Great Exhibition at Crystal Palace • 1851): Sketch the towering cast-iron and glass arches of the Crystal Palace with Victorian visitors marveling at steam engines [glass Crystal Palace transept • giant steam engine flywheel • Victorian gentlemen & ladies].

TEACHER CHECK • DISCIPLINARY LEVEL: **[ ] Emerging** **[ ] Developing** **[ ] Secure** **[ ] Greater Depth**

NOTES • REVISION & ASSESSMENT PLANNING

Notes: Record key causal links, essay plans, and teacher feedback for this unit.

NOTES • REVISION & ASSESSMENT PLANNING
