

KS3: Industrialisation, Empire, and Power (1750–1900)

"Industrialisation, Empire, and Power: How did 19th-century Britain transform at home and abroad?"

MASTERY PACK: COMPLETE UNIT MASTERY

Operative / Student Name: _____

Target: Total Recall of 134 Crucial Questions

RESTRICTED ACCESS - MASTER YOUR MEMORY

How to Hack Your Memory

(Rules of Engagement)

1. Never Just Read

Reading the answers feels like learning, but it's an illusion. You must force your brain to struggle to find the answer. The struggle is what builds memory pathways.

2. Cover, Recall, Check

Cover the answer sheet. Write your answer down in the notes section (or say it out loud). Only then are you allowed to check 'The Vault'.

3. Track Your Threat Level

Use the R-A-G (Red, Amber, Green) checkboxes next to every question after you attempt it.

- ☐ **Green:** I nailed it instantly.
- ☐ **Amber:** I got it, but I had to think hard.
- ☐ **Red:** My mind went blank. (Revisit these tomorrow).

4. The Interrogation (Homework Protocol)

True mastery requires testing under pressure. Hand 'The Vault' (answers) to your parent or guardian. They will test you on 20 random questions. They hold the score; they hold the signature.

What powered the Industrial Revolution, and how did a Fareham ironmaster change the world?

Q#	The Target Question	R	A	G	Notes / My Answer
1	What is meant by the term 'Divine Right of Kings'?	☐	☐	☐	
2	Who became King after the English Civil War ended and Oliver Cromwell died?	☐	☐	☐	
3	Why did the Gunpowder Plot of 1605 fail?	☐	☐	☐	
4	What was the significance of the Magna Carta signed in 1215?	☐	☐	☐	
5	Why did Henry VIII break away from the Catholic Church?	☐	☐	☐	
6	What two major iron-making processes did Henry Cort patent at the Funtley Ironworks in the 1780s?	☐	☐	☐	
7	Why did Henry Cort specifically choose to locate his ironworks near Fareham?	☐	☐	☐	
8	What tragic event caused Henry Cort to lose his patents and die in poverty?	☐	☐	☐	
9	What was the primary cause of the English Civil War?	☐	☐	☐	
10	What was the result of the Spanish Armada in 1588?	☐	☐	☐	
11	What are 'Fareham Reds'?	☐	☐	☐	
12	Name one highly dangerous or physically demanding job a child might perform in a 19th-century textile mill or brickfield.	☐	☐	☐	
13	Why did factory owners actively prefer to hire children rather than adults?	☐	☐	☐	
14	Explain how Henry Cort's inventions at the Funtley	☐	☐	☐	

Q#	The Target Question	R	A	G	Notes / My Answer
	Ironworks helped power the Industrial Revolution globally.				
15	Why do 'Optimist' and 'Pessimist' historians disagree about the impact of the Industrial Revolution on working-class families?	☐	☐	☐	
16	Why did Victorian builders heavily rely on 'Fareham Red' bricks during 19th-century urbanisation?	☐	☐	☐	
17	How did the 1842 Chadwick Report challenge the traditional government policy of 'laissez-faire'?	☐	☐	☐	
18	What scientific breakthrough did Dr. John Snow achieve during the 1854 cholera outbreak?	☐	☐	☐	
19	What was the original purpose of the East India Company when it was founded in 1600?	☐	☐	☐	
20	How did the East India Company secure its commercial monopolies in India?	☐	☐	☐

THE VAULT

Restricted Access: Answer Keys

What powered the Industrial Revolution, and how did a Fareham ironmaster change the world?

1. The belief that a monarch receives their right to rule directly from God.
2. Charles II (The Restoration).
3. Guy Fawkes was discovered in the cellars with the gunpowder before it could be lit.
4. It limited the power of the king and established that everyone is subject to the law.
5. To divorce Catherine of Aragon and marry Anne Boleyn, leading to the creation of the Church of England.
6. The Puddling Process (stirring molten iron to remove impurities) and the Rolling Mill (using grooved rollers to shape the iron).
7. Because it was perfectly located to supply high-quality iron to the massive Royal Navy dockyards in nearby Portsmouth.
8. His business partner, Adam Jellicoe, embezzled money from the Royal Navy. When Jellicoe died, the government seized Cort's patents to recover the stolen funds.
9. A power struggle between King Charles I and Parliament over how the country should be ruled.
10. The Spanish fleet was defeated by the English navy and severe storms, securing Elizabeth I's throne.
11. Famous, high-quality red bricks manufactured from clay in Fareham, Hampshire, highly sought after by Victorian architects.
12. Scavenging for loose cotton under moving machinery, sitting in the dark as a 'trapper' in a mine, or acting as a 'pug boy' or brick turner in the freezing mud of a brickyard.
13. Children could be paid a fraction of an adult's wage, were easier to discipline, and their small size allowed them to fit under machines or into narrow mine shafts.
14. Cort's 'puddling' and 'rolling' processes allowed Britain to mass-produce cheap, high-quality wrought iron. This iron built the steam engines, railways, and naval ships that powered Britain's global dominance.
15. Pessimists focus on the catastrophic initial cost, arguing the working class was punished with unlivable slums and horrific child exploitation. Optimists argue that despite initial hardships, the wealth and technology generated eventually led to massive progress, higher wages, and improved life expectancy.

132. A rotten borough was a voting district that had lost virtually its entire population over centuries but still sent two MPs to Parliament. A local example was Newtown on the Isle of Wight (historic Hampshire), which had only 14 houses but retained two MPs.

133. The 1832 Act expanded the vote only to middle-class property owners (£10 qualification), deliberately excluding the working class. The elite hoped this compromise would pacify the country, ally the middle class with the establishment, and block further democratic expansion.

134. Prior to 1872, voting was public, allowing landlords and factory bosses to watch how men voted and punish them with eviction or unemployment. The Secret Ballot made voting entirely private, collapsing the elite's mechanism of bribery and intimidation.
