Question 3: Narrative Account (8 Marks)

T-P-C Storyboard · ~12 Mins

Write a narrative account analysing the key events of the Arab-Israeli war (1948–49).

You may use the following in your answer: • The invasion by Arab armies (May 1948) • The June 1948 truce (You must also use information of your own.)

Stage 1: The Outbreak (May 1948)

On 15 May 1948, armies from Egypt, Transjordan, Syria, Lebanon, and Iraq invaded simultaneously; Arab forces besieged 100,000 Jews in Jerusalem and advanced towards Tel Aviv.

Stage 2: The Turning Point (June 1948)

A 4-week UN truce enabled Israel to secretly import Avia S-199 fighters and rifles from Czechoslovakia, while David Ben-Gurion unified Haganah, Irgun, and Lehi into the IDF.

Stage 3: Outcome & Green Line (1948–49)

IDF counter-offensives broke the siege of Jerusalem via the Burma Road and secured 1949 armistices enclosing 79% of Palestine, creating 700,000 Palestinian refugees (the Nakba).

 **Causal Connectives Bank:** This triggered an immediate... • A decisive turning point occurred when... • Consequently, this enabled the IDF to... • The culmination of this development was...

 - 38 Egyptian soldiers and 8 Israelis were killed, exposing severe Egyptian military deficiencies.
 - Convinced President Nasser that Western arms embargos left Egypt vulnerable to Israeli aggression.

 **Trap:** Do not describe how the raid was carried out; focus solely on the political and military consequence for Nasser.

One consequence was that...

Specifically, (deploy 2–3 precise historical facts)...

This was significant because it led directly to...

Question 2: Importance (8 Marks)

 - Doubled Israel's population within four years, absorbing 680,000 immigrants including European Holocaust survivors and Mizrahi/Sephardic refugees expelled from Arab nations.
 - Created vital military manpower for the newly formed IDF and established demographic security against surrounding Arab majorities.

 **Trap:** Ensure your answer links directly to the survival and development OF THE NEW STATE, rather than writing a general history of immigration.

 **Examiner Focus:** Explain importance directly for the named outcome, not general background.

Grade 9 Upgrade: Balance the military and demographic security advantages against the severe economic strain (ma'abarot tent cities, strict food rationing) it placed on the fledgling state.

Question 3: Narrative Account (8 Marks)

Chronological Anchor Toolkit · ~12 Mins

Write a narrative account analysing the key events of the Suez Crisis (1956).

Stimulus Points: • Nationalisation of the Suez Canal (July 1956) • The Protocol of Sèvres (October 1956) (You must also use information of your own.)

Chronological Anchors (AO1)

July 1956: Nasser nationalises Suez Canal after US withdraws Aswan Dam funding.

Oct 1956: Protocol of Sèvres: Britain, France, and Israel secret collusion agreement.

Oct–Nov 1956: Israel invades Sinai; Anglo-French ultimatum and paratrooper landings at Port Said.

Nov 1956: US financial sanctions and UN pressure force humiliating Anglo-French withdrawal.

Causal Bridges Bank (AO2)

- "Nasser's nationalisation prompted..."
- "This led directly to secret tripartite collusion when..."
- "However, the military advance was halted when..."

Essential Historical Terms:

- **Nationalisation:** Nasser state seizure of Suez Canal Company
- **Protocol of Sèvres:** Secret UK-France-Israel collusion pact
- **Ultimatum:** Anglo-French pretext to occupy canal zone
- **Financial Sanctions:** US pressure on sterling forcing British exit

Fatal Narrative Trap: Do not focus purely on military clashes in Sinai. You must explain how US financial sanctions and UN pressure converted an Anglo-French military victory into a political defeat.

Pre-Flight Self-Audit:

- ☐ Stage 1: Trigger & crisis identified
- ☐ Stage 2: Decisive turning point explained
- ☐ Stage 3: Long-term outcome & legacy
- ☐ Both stimulus points + 1 own fact used

ROUND 3: ENGINE ROOM

1. 4-Mark Consequence Planning Grid:

P-F-C Structure

Explain one consequence of the formation of the United Arab Republic (UAR) in 1958.

Point (Sentence 1)	2–3 Specific Historical Facts (AO1)	Causal Link to Outcome (AO2)
One consequence was that it encircled Israel with a unified Pan-Arab political union under President Nasser.	Egypt and Syria merged into a single state in February 1958, placing Egyptian military commanders in control of Syria's southern border with northern Israel.	This heightened Israeli security fears of a coordinated two-front war and pushed Israel to seek closer defensive ties with the United States and France.

2. 8-Mark Importance Planning Grid:

F-I-L Structure

Explain the importance of the creation of the Israeli Defence Forces (IDF) for the aftermath of the 1948–49 war.

Core Factor	Factual Information (Names, Dates, Treaties)	Direct Link to Named Outcome
The IDF was important because it dissolved competing political militias into a unified, disciplined national army under state control.	Established by David Ben-Gurion's Order No. 4 on 26 May 1948, forcibly disbanding the Haganah, Irgun, and Lehi (culminating in the Altalena affair), and introducing universal conscription.	This prevented factional civil war among Jewish groups, established firm civilian political control over the military, and created a permanent standing force capable of defending armistice borders.

3. 8-Mark Narrative Storyboard Grid:

3-Stage Causal Arc

Write a narrative account analysing the key events leading to the end of the British Mandate in Palestine (1945–48).

Stage 1: Catalyst / Outbreak	Stage 2: Decisive Pivot	Stage 3: Climax & Outcome
Post-war Holocaust survivors sought entry; British White Paper strictly limited immigration to 1,500/month, triggering illegal Aliyah Bet ships (e.g. SS Exodus) and militant Jewish insurgency.	Irgun and Lehi launched guerrilla warfare against British infrastructure, climaxing in the July 1946 King David Hotel bombing and the hanging of two British sergeants in 1947.	Facing economic crisis at home and international outrage over turning back refugee ships, Britain announced in February 1947 it would surrender the Mandate, referring Palestine to the UN.

 AO1 (Knowledge & Recall): Accurate, specific, and detailed historical facts deployed throughout. Include key figures, statistics, dates, and treaties.	 AO2 (Historical Analysis): Sustained causal explanation. Explain consequence, importance, and causal linkages rather than narrative description.

TOP 3 FATAL EXAMINER TRAPS TO AVOID FOR KEY TOPIC 1

• Partition (1947) vs Armistice (1949)

Do not confuse the 1947 UN Partition Plan (Res 181, which allocated 55% of Mandatory Palestine to a Jewish state) with the 1949 Armistice Green Line (which enclosed 79% following the 1948–49 War). Res 181 was never implemented as Arab leaders rejected it.

• The Turning Point of the 1948–49 War

The decisive turning point of the 1948–49 War was NOT superior Israeli numbers at the outbreak, but the 4-week UN truce in June 1948. This allowed Israel to import Czech Avia S-199 fighters and rifles, while David Ben-Gurion unified all militias into the IDF.

• Suez 1956: Military Victory vs Political Defeat

Britain and France achieved total military victory in capturing Port Said in November 1956, but suffered a catastrophic political humiliation when US President Eisenhower threatened financial sanctions, forcing an immediate withdrawal and elevating Nasser into a Pan-Arab hero.

Question 3: Narrative Account (8 Marks)

T-P-C Storyboard · ~12 Mins

Write a narrative account analysing the key events of the Six Day War (1967).

You may use the following in your answer: • Operation Focus airstrikes (5 June) • The capture of East Jerusalem (7 June) (You must also use information of your own.)

Stage 1: Operation Focus (5 June 1967) Israel launched pre-emptive airstrikes flying below Egyptian radar, destroying over 300 aircraft on the ground in 3 hours and securing absolute air supremacy.	Stage 2: Fronts Encircled (5–8 June) IDF armoured columns swept across Sinai to the Suez Canal; paratroopers under Motta Gur took the Old City of Jerusalem and cleared Jordanian forces from the West Bank.	Stage 3: Golan Heights & Ceasefire (9–10 June) IDF brigades scaled the fortified Golan escarpment, driving Syrian artillery back from the Sea of Galilee before accepting a UN ceasefire, quadrupling Israel's territory.

 **Level 3 (Grade 9) Analytical Glue:** Grade 9 Analytical Glue: Explicitly trace how Israel's complete air supremacy established in the first 180 minutes directly enabled ground commanders to execute rapid flanking maneuvers across three separate fronts.

Question 1: Consequence (4 Marks)

Independent Toolkit · P-F-C Formula · ~6 Mins

Explain one consequence of the events of 7 April 1967 for escalating tension between Israel and Syria.

 **Fact Vault (AO1)**

- Tractor dispute in the demilitarized zone escalated into a major aerial battle over the Golan Heights.
- Israeli Air Force Mirage jets shot down 6 Syrian MiG-21 fighters and flew victory rolls directly over Damascus.
- Syria invoked its mutual defence treaty with Egypt, pressuring President Nasser to mobilize troops and expel UN peacekeepers.

 **Trap:** Focus strictly on how the dogfight escalated tension towards the Six Day War, not on the tractor farming dispute itself.

Grade 9 Upgrade: Explain how this humiliation combined with false Soviet intelligence reports of Israeli troop mobilization on 13 May to make Nasser's closure of the Straits of Tiran unavoidable.

One consequence was that...

Specifically, (deploy 2–3 precise historical facts)...

Question 2: Importance (8 Marks)

Independent Toolkit · F-I-L Formula · 2 Developed Explanations · ~12 Mins

Explain the importance of the Cairo Conference (1964) for the growth of Fatah and the PLO.

 **Fact Vault (AO1)**

- Convened by President Nasser in January 1964; brought 13 Arab heads of state together to formulate a strategy against Israeli water diversions.
- Formally established the Palestine Liberation Organization (PLO) and the Palestinian National Council, adopting the Palestinian National Charter.
- Provided an official pan-Arab umbrella framework that Yasser Arafat's independent guerrilla movement, Fatah, ultimately took over in 1969.

 **Trap:** Differentiate between the initial PLO created as Nasser's diplomatic puppet in 1964 and Arafat's militant Fatah takeover in 1969.

 **Examiner Focus:** Explain importance directly for the named outcome, not general background.

Grade 9 Upgrade: Contrast Nasser's intention to control Palestinian nationalism with the unintended consequence of providing a platform that radicalized fedayeen guerrilla warfare.

Question 3: Narrative Account (8 Marks)

Chronological Anchor Toolkit · ~12 Mins

Write a narrative account analysing the key events of the Yom Kippur War (1973).

Stimulus Points: • Operation Badr canal crossing (6 October) • The battle of the Chinese Farm (15–17 October) (You must also use information of your own.)

Chronological Anchors (AO1)

6 Oct 1973: Simultaneous Egyptian-Syrian surprise assault; Egypt breaches Bar-Lev Line with high-pressure water monitors.

7–10 Oct: IDF reserves mobilize under SAM umbrellas; Syrian armour pushed off the Golan Heights.

15–18 Oct: General Ariel Sharon leads IDF crossing of the Suez Canal, encircling Egypt's Third Army.

22–25 Oct: US and USSR sponsor UN Resolution 338 ceasefire after superpowers reach nuclear alert.

Causal Bridges Bank (AO2)

• "The surprise offensive began when..."

• "Having stabilized the northern front, the IDF..."

• "This pivotal counter-attack resulted in..."

Essential Historical Terms:

- **Operation Badr:** Water monitors breaching Bar-Lev sand wall
- **SAM Umbrellas:** Soviet anti-aircraft cover shielding Egyptian armour
- **Suez Crossing:** Sharon's counter-strike encircling Egypt's 3rd Army
- **UN Res 338:** Superpower ceasefire ending superpower nuclear alert

Fatal Narrative Trap: Do not treat this as an uncomplicated Israeli military victory. You must explain how Egypt's initial canal crossing broke the Bar-Lev Line, shattered the myth of IDF invincibility, and paved the way for diplomatic negotiations.

Pre-Flight Self-Audit:

☐ Stage 1: Trigger & crisis identified

☐ Stage 2: Decisive turning point explained

☐ Stage 3: Long-term outcome & legacy

☐ Both stimulus points + 1 own fact used

☐ Explicit causal connective links stages

Level 3 Standard (7–8 Marks): Must demonstrate how the tactical success of the Egyptian canal crossing shattered the myth of Israeli invincibility and enabled Anwar Sadat to pursue diplomacy from equal dignity.

3-Stage Causal Storyboard Arc:

Round 3: The Planning Engine Room · Causal Architecture (Plan here, write on Page 11)

ROUND 3: ENGINE ROOM

1. 4-Mark Consequence Planning Grid:

P-F-C Structure

Explain one consequence of Israel's raid on Samu (1966) for tension between Israel and Jordan.

Point (Sentence 1)	2–3 Specific Historical Facts (AO1)	Causal Link to Outcome (AO2)
One consequence was that it wrecked secret cooperative security relations between King Hussein of Jordan and Israel.	On 13 November 1966, following a Fatah landmine, the IDF launched a massive punitive assault on the West Bank village of Samu, destroying 125 houses and killing 15 Jordanian soldiers.	Riots erupted across Jordan demanding King Hussein's overthrow, forcing Hussein to sign a mutual defence pact with Egypt in May 1967, ensuring Jordan would enter the Six Day War.

2. 8-Mark Importance Planning Grid:

F-I-L Structure

Explain the importance of the PFLP airplane hijacks of 1970 for international attitudes towards the Palestine issue.

Core Factor	Factual Information (Names, Dates, Treaties)	Direct Link to Named Outcome
The Dawson's Field hijacks forced the Palestinian national cause onto the front pages of world media, but alienated Western public opinion.	In September 1970, George Habash's PFLP hijacked four airliners, landing three in Dawson's Field in Jordan, holding over 300 Western hostages, and blowing up empty aircraft on global TV.	While it pressured Western powers to acknowledge that Middle East peace required addressing Palestinian identity, it triggered Black September and led Western governments to brand Palestinian guerrilla groups as terrorist organizations.

3. 8-Mark Narrative Storyboard Grid:

3-Stage Causal Arc

Write a narrative account analysing the actions of Nasser, the USSR, and the USA leading to the Six Day War (1967).

Stage 1: Catalyst / Outbreak	Stage 2: Decisive Pivot	Stage 3: Climax & Outcome
On 13 May, the USSR falsely warned Nasser that Israel was massing brigades on the Syrian border; to maintain his leadership, Nasser mobilized 100,000 troops in Sinai and expelled UN peacekeepers.	On 22 May, Nasser closed the Straits of Tiran to Israeli shipping (an explicit Israeli casus belli) and signed a military pact with King Hussein of Jordan on 30 May, completing Israel's encirclement.	The USA refused to intervene militarily to open the Straits, signaling to Israeli Prime Minister Levi Eshkol and Moshe Dayan that Washington would not oppose an immediate pre-emptive strike.

 AO1 (Knowledge & Recall): Accurate, specific, and detailed historical facts deployed throughout. Include key figures, statistics, dates, and treaties.	 AO2 (Historical Analysis): Sustained causal explanation. Explain consequence, importance, and causal linkages rather than narrative description.

TOP 3 FATAL EXAMINER TRAPS TO AVOID FOR KEY TOPIC 2

• The 1967 vs 1973 Territorial Shift

Israel conquered the Occupied Territories (Sinai, Gaza Strip, West Bank, East Jerusalem, Golan Heights) in the 1967 Six Day War, NOT in 1973. In 1973, borders remained essentially unchanged following the UN ceasefire.

• The Wording of UN Resolution 242

In UN Resolution 242 (1967), the English text intentionally called for Israeli withdrawal from "territories occupied" rather than "THE territories occupied". This deliberate ambiguity allowed Israel to claim it was not required to surrender all land.

• Israeli Intelligence and "The Conception"

The catastrophic surprise of the 1973 Yom Kippur War was rooted in "The Conception" (Aman hubris) — the false Israeli assumption that Egypt would never attack without long-range strike aircraft capable of neutralizing Israeli airfields.

Question 1: Consequence (4 Marks)

P-F-C Formula · ~6 Mins

Explain one consequence of the Treaty of Washington (1979) for Egyptian relations with other Arab states.

🔥 **Level 1 Launchpad:** Starter: "One consequence was that Egypt was politically isolated and ostracized by the rest of the Arab world."

Stimulus Points: • Sadat’s address to the Knesset (November 1977) • The Camp David summit (September 1978) (You must also use information of your own.)

Chronological Anchors (AO1)

Dec 1977: Menachem Begin makes reciprocal visit to Ismailia, but bilateral negotiations stall over Sinai settlements.

Sept 1978: President Jimmy Carter hosts 13-day marathon summit at Camp David, producing two framework accords.

March 1979: Sadat and Begin sign formal Treaty of Washington on White House lawn, restoring Sinai to Egypt.

Causal Bridges Bank (AO2)

- "Sadat's bold initiative broke thirty years of hostility when..."
- "When subsequent talks deadlocked, President Carter intervened by..."

ROUND 3: ENGINE ROOM

1. 4-Mark Consequence Planning Grid:

P-F-C Structure

Explain one consequence of the Israel-Jordan peace treaty (1994).

Point (Sentence 1)	2–3 Specific Historical Facts (AO1)	Causal Link to Outcome (AO2)
One consequence was that it normalized diplomatic, trade, and water-sharing relations between Israel and its second Arab neighbour.	Signed by Yitzhak Rabin and King Hussein in the Arava desert on 26 October 1994, resolving border and water disputes along the Jordan and Yarmouk rivers.	Israel recognized Jordan's special historic role as custodian of Muslim holy shrines in Jerusalem, securing Israel's longest land border and strengthening the pro-Western moderate bloc in the region.

2. 8-Mark Importance Planning Grid:

F-I-L Structure

Explain the importance of the oil crisis (1973) for the involvement of the USA in the Middle East.

Core Factor	Factual Information (Names, Dates, Treaties)	Direct Link to Named Outcome
The OPEC oil embargo demonstrated that Middle Eastern instability directly threatened the domestic economic security of the United States.	OAPEC cut oil production and placed a total embargo on petroleum exports to the US in response to Nixon's \$2.2bn military airlift to Israel, quadrupling world oil prices and causing fuel shortages and inflation.	This forced US Secretary of State Henry Kissinger to abandon passive diplomacy and launch intense "shuttle diplomacy" between Cairo, Damascus, and Tel Aviv, establishing Washington as the dominant mediator.

3. 8-Mark Narrative Storyboard Grid:

3-Stage Causal Arc

Write a narrative account analysing changing superpower policies in the Middle East from the Gulf War (1991) to the Oslo Accords (1993).

Stage 1: Catalyst / Outbreak	Stage 2: Decisive Pivot	Stage 3: Climax & Outcome
The 1991 Gulf War saw the US lead an international coalition including Arab states (Egypt, Syria) to liberate Kuwait, while Arafat backed Saddam Hussein, severely isolating the PLO financially.	The collapse of the Soviet Union left the USA as the sole global superpower, ending Moscow's financial and military backing for Arab client states and bringing 400,000 Soviet Jewish immigrants to Israel.	Exploiting this unipolar moment, President George H.W. Bush convened the 1991 Madrid Conference; when official bilateral talks stalled, Israel and the weakened PLO initiated secret talks in Oslo.

• Importance Questions: Answer the Prompt Outcome

In Edexcel Importance questions, you MUST explain why an event was important FOR THE SPECIFIC PROMPT (e.g. importance of Arafat's UN speech FOR PLO status), rather than writing general biography about Yasser Arafat.
