Pearson Edexcel GCSE (9–1)

Mock Examination

Morning (Time: 1 hour 20 minutes)

Paper reference: 1HI0/11

History

PAPER 1: Thematic study and historic environment

Option 11: Medicine in Britain, c1250–present and The British sector of the Western Front, 1914–18: injuries, treatment and the trenches

You must have:
Sources Booklet (enclosed)

Total
Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- There are two sections in this question paper. Answer all parts of Questions 1 and 2 from Section A. From Section B, answer Questions 3 and 4 and then **EITHER** Question 5 **OR** Question 6.
- Answer the questions in the spaces provided – *there may be more space than you need*.

Information

- The total mark for this paper is 52.
- The marks for **each** question are shown in brackets – *use this as a guide as to how much time to spend on each question.*
- The marks available for spelling, punctuation, grammar and use of specialist terminology are clearly indicated.

Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.

SECTION A: THE BRITISH SECTOR OF THE WESTERN FRONT, 1914–18: INJURIES, TREATMENT AND THE TRENCHES

1 (a) Describe one way in which the nature of combat on the Western Front caused severe casualties.

(2)

1 (b) Identify and describe one key aspect of how blood transfusions were utilized during the First World War.

(2)

[illegible]

(8)

- 2 (b) Study Source B. How could you follow up Source B to discover more about the severe conditions faced by medical staff treating the wounded? In your answer, you must state the question you would ask and identify a specific type of historical source you could consult. Complete the table below.**

(4)

Detail in Source B that I would follow up:
Question I would ask:
What type of source I could use:
How this might help answer my question:

(Total for Question 2 = 12 marks)

SECTION B: MEDICINE IN BRITAIN, C1250–PRESENT

3 Explain one significant similarity between the societal reaction to the Great Plague (1665) and the Cholera outbreaks in London (1854).

Answer EITHER Question 5 OR Question 6. Spelling, punctuation, grammar and use of specialist terminology will be assessed in this question.

EITHER

5 'The Theory of the Four Humours was the most significant foundation of medical knowledge between c1250 and c1700.' How far do you agree with this statement? Explain your reasoning.

You **may** use the following in your answer:

- The enduring influence of Galen
- Traditional herbal remedies

You **must** also use information of your own.

(16)

OR

6 'Government intervention was the main reason for improvements in hospital care from c1800 to the present.' How far do you agree with this statement? Explain your reasoning.

You **may** use the following in your answer:

- The establishment of the National Health Service in 1948
- Florence Nightingale's impact on nursing standards

You **must** also use information of your own.

(16)

(Total for spelling, punctuation, grammar and use of specialist terminology = 4 marks)

(Total for Question = 20 marks)

Indicate which question you are answering by marking a cross in the box [X].

Sources Booklet

Do not return this Booklet with the question paper.

Sources for use with Section A.

Source A: From the journal of Reverend Arthur Davies, July 1916. He was serving as an army chaplain at a Casualty Clearing Station near the Somme. He is describing the opening days of the offensive.

1 July 1916 The casualties have started to arrive. Throughout the day, the injured and dying are brought in continuously. The volume of patients is overwhelming; every bed is occupied, and men are fortunate just to find a spot on the bare ground. Many will pass away before surgery is possible. We have already admitted 1,500 casualties, and the stream has not stopped. 3 July 1916 Another thousand severely injured men arrive daily. The wards, tents, and wooden huts are packed to the limit with suffering soldiers.

Source B: From a letter written by Edith Smith, a VAD nurse, to her sister in December 1917. She was stationed at a base hospital near the French coast.

Our morning duties (changing the linens, washing patients, recording temperatures, and dispensing medication) begin at 3.30 am! The freezing temperatures are unbearable. Icicles hang thick over the ward windows. I have to work while wearing an extra knitted sweater and my heavy overcoat. Even the kettles, rubber hot water bottles, and washing sponges have frozen solid. The pipes freeze entirely, meaning we must strictly ration the water provided to the wounded. If any water splashes onto the floor, it instantly turns into a sheet of ice.
