SECTION C: HIGH-SCORING EXEMPLAR RESPONSES

Official Pearson Edexcel Level 3 continuous prose exemplars with examiner annotations.

GRADE 8/9 MODELS: Q1 & Q3

QUESTION 1: CONSEQUENCE EXEMPLAR

Full Marks · Level 2 (4/4)

Explain one consequence of the expulsion of the PLO from Jordan (1970).

One consequence of the expulsion of the PLO from Jordan in 1970 was that it forced Palestinian guerrilla factions to relocate their main military and political headquarters to Southern Lebanon. Following King Hussein's violent crackdown during Black September (1970), which killed several thousand fedayeen, Yasser Arafat and the PLO were expelled from Amman. In Lebanon, the PLO established an autonomous armed enclave along Israel's northern frontier. This directly triggered frequent cross-border rocket strikes and raids into northern Israel, provoking regular Israeli artillery reprisals and ultimately prompting Israel's 1982 invasion of Lebanon.

Examiner Annotation: Level 2 (4 Marks): Precise focus on the consequence (relocation to Lebanon and creation of border enclave); specific factual details (Black September, Amman, cross-border raids, 1982 invasion).

QUESTION 3: IMPORTANCE EXEMPLAR

Full Marks · Level 3 (8/8)

Explain the importance of UN Resolution 242 for the aftermath of the 1967 war.

UN Resolution 242 was important for the aftermath of the 1967 war because it established the fundamental "land for peace" diplomatic formula that framed all subsequent Middle East negotiations. Adopted unanimously by the UN Security Council on 22 November 1967, it called for the withdrawal of Israeli armed forces from territories occupied during the conflict in return for the termination of belligerency and the acknowledgement of every state's right to live in peace within secure, recognized borders. This provided the first universally accepted legal compromise between Arab demands for land return and Israeli demands for permanent recognition.

Furthermore, Resolution 242 was important because its deliberate linguistic ambiguity dictated decades of regional diplomacy. The English text called for withdrawal from "territories occupied" rather than "THE territories occupied", allowing Israel to insist that it was not required to surrender all the land captured in 1967 (such as East Jerusalem and the Golan Heights). While the PLO initially rejected the resolution because it treated Palestinians merely as "refugees", Resolution 242 served as the mandatory foundation for the 1978 Camp David Accords, the 1979 Treaty of Washington, and the 1993 Oslo Accords.

Examiner Annotation: Level 3 (8 Marks): Two fully developed paragraphs; clear analysis of "land for peace" and linguistic ambiguity; precise knowledge (22 Nov 1967, Camp David, English drafting).

SECTION C: NARRATIVE EXEMPLAR & FATAL EXAMINER TRAPS

Official Level 3 continuous prose model answer and high-frequency pitfalls to avoid.

GRADE 8/9 MODEL: Q2

QUESTION 2: NARRATIVE ACCOUNT EXEMPLAR

Full Marks · Level 3 (8/8)

Write a narrative account analysing the key events of the Six Day War (1967).

The Six Day War began at 7:45 am on 5 June 1967 when Israel launched a pre-emptive airstrike against Egyptian airbases. Flying below Egyptian radar across the Mediterranean, the Israeli Air Force caught the Egyptian air force completely by surprise, destroying over 300 combat aircraft on the runway within three hours and disabling runways with specialized penetration bombs. This instantaneous destruction of Egyptian airpower established total Israeli air supremacy from the opening morning, leaving Arab ground forces without air support. With aerial supremacy secured, Israeli ground forces executed rapid multi-front offensives. In the south, three armoured divisions under Sharon and Tal smashed through Egyptian defenses in Sinai, racing to block the Mitla Pass and reaching the Suez Canal by 8 June. Meanwhile, after King Hussein opened artillery fire on West Jerusalem under false Egyptian reports of victory, Israeli paratroopers under Motta Gur counter-attacked into East Jerusalem, capturing the Old City and the Western Wall on 7 June while clearing Jordanian forces from the entire West Bank. Following victory on the southern and central fronts, the IDF turned against Syria on 9 June. Israeli brigades scaled the heavily fortified Golan Heights escarpment under intense artillery fire, capturing the strategic high ground overlooking the Sea of Galilee. By the time a UN ceasefire took effect on 10 June, Israel had shattered three Arab armies in six days and quadrupled its territory, bringing one million Palestinian Arabs under military rule in Sinai, Gaza, the West Bank, East Jerusalem, and the Golan Heights.

Examiner Annotation: Level 3 (8 Marks): 3-stage causal narrative covering air strikes, multi-front advance, and the Golan climax; explicit causal links; integration of both stimulus points with rich tactical knowledge.

TOP 3 FATAL EXAMINER TRAPS TO AVOID FOR KEY TOPIC 2

- The 1967 vs 1973 Territorial Shift**
Israel conquered the Occupied Territories (Sinai, Gaza Strip, West Bank, East Jerusalem, Golan Heights) in the 1967 Six Day War, NOT in 1973. In 1973, borders remained essentially unchanged following the UN ceasefire.
- The Wording of UN Resolution 242**
In UN Resolution 242 (1967), the English text intentionally called for Israeli withdrawal from "territories occupied" rather than "THE territories occupied". This deliberate ambiguity allowed Israel to claim it was not required to surrender all land.
- Israeli Intelligence and "The Conception"**
The catastrophic surprise of the 1973 Yom Kippur War was rooted in "The Conception" (Aman hubris) — the false Israeli assumption that Egypt would never attack without long-range strike aircraft capable of neutralizing Israeli airfields.
