Vocabulary Check

The Odd One Out: Select *THREE* terms that share a close historical connection. Identify which *ONE* remaining term is the 'Odd One Out' in this lesson, and explain your historical reasoning:

Succession Crisis | Claimant | Witan | Housecarl | Shield Wall | Feigned Retreat

Q1. The Claimants' Pitch (Group Battle) Imagine you are an adviser to the Witan (the council of English lords) in January 1066. Write a short persuasive speech (3-4 sentences) for ONE of the three claimants (Harold, William, or Hardrada) convincing the lords why they should choose your man to be King. Hint: Make sure you use their specific historical evidence (like Harold's deathbed promise, William's holy oath, or Hardrada's old Viking treaty) to make your case!

Q2. The Exhaustion Timeline (Why Timing was Everything) Historians argue that William was incredibly lucky with the weather in September 1066. 1. Calculate the days: How many days did Harold have between fighting the Vikings at Stamford Bridge (25 Sept) and fighting the

Normans at Hastings (14 Oct)? 2. Explain the impact: Write a short explanation of how the timing of the two invasions left Harold's army at a massive disadvantage before the Battle of Hastings even started.

Drawing Task: Q3 Tension Timeline Draw a line graph mapping King Harold's stress levels day-by-day throughout September and October 1066. Label key events such as waiting for the wind, hearing about the Viking invasion, winning at Stamford Bridge, and the Norman landing.

Q4. Source Analysis (Source A) According to Source A, what was the main reason King Harold lost the battle? *Hint: Look at the sentence describing how William arrived at the battlefield.*

Q5. Source Analysis (Source B) Look at Source B (The Bayeux Tapestry). How does this source support the idea that Harold's death was chaotic and brutal?

Q6. Hastings Tactical Analysis (How the Battle was Won) Copy and complete the flow diagram below to show how the battle shifted in William's favour.

1. Saxon Shield Wall holds firm on the high ground

2. Rumour spreads that William is [.]. William removes his [.] to prove he is alive.

3. The Cunning Plan: William orders a "[.] retreat" to trick the Saxons down the hill.

4. Saxon Shield Wall is broken. Archers fire [.], and King [.] is killed.

Q7. The Turning Point Debate (Evaluation) Look at the list of reasons why William won: - William's clever tactics (the feigned retreat) - Harold's mistakes (letting his men chase the retreating Normans) - Bad luck for Harold (having to fight two invasions at opposite ends of the country) - William's leadership (keeping his men motivated and organized) Write a brief paragraph arguing which of these was the single most important reason William won the throne. Use evidence from your notes to justify your choice!

Q8 Put these key events of 1066 in the correct chronological order to map out the dramatic sequence of events.

- ☐ Edward the Confessor dies without a direct heir.
- ☐ Harold Godwinson is crowned King of England.
- ☐ Harald Hardrada and the Vikings invade the north of England.
- ☐ Harold Godwinson marches north and defeats the Vikings at Stamford Bridge.
- ☐ The wind changes, allowing William's Norman fleet to cross the English Channel.
- ☐ The English army rushes south but is defeated by the Normans at the Battle of Hastings.

Q9. Prompt: Discuss with your partner: Which of the three claimants do you think had the strongest legal claim to the throne of England, and why?

Why did the steep 5–15m artificial slope make horse charges impossible and give archers clear vantage over dead ground?

② The Keep (Tower)

STRONGHOLD

Why was timber used rather than stone in 1067? How did defenders protect the wooden walls from Saxon fire-arrows?

③ The Bailey (Yard)

GARRISON

Name 3 functions housed here (stables, barracks, armoury). Why was keeping Destrier warhorses secure vital?

④ Palisade, Moat & Gatehouse

PERIMETER

How did the deep ditch and sharpened stake palisade stop surprise Saxon night raids? Why fortify the gatehouse most?

⑤ Flying Bridge (Causeway)

CHOKEPOINT

If rebels breached the outer bailey, how did this narrow, steep bridge allow defenders to create a deadly bottleneck?

HISTORICAL EVALUATION QUESTION

Extended Answer

Q1 King John was a disastrous ruler. Match his failures to the correct category.

Losing all his land in Normandy to the French King Philip II	• •	Military Failure
Arguing with the Pope and getting excommunicated	• •	Religious Dispute
Raising the Scutage tax on his barons again and again	• •	Financial Extortion
