

Guide 03: Reprographics & Print Handbook

Saddle-Stitch Imposition, Gutter Margins & Duplex Booklet Production

Instructions for Reprographics & Print Room Staff: All pupil workbooks are engineered for **A4 Portrait Saddle-Stitched Booklets** (printed two-up on A3 paper, folded and stapled on the spine). Follow these exact machine settings to guarantee flawless page alignment.

PHOTOCOPIER / RISO MACHINE SETTINGS	GUTTER MARGINS & CREEP ALLOWANCE
Original Document Size: A4 Portrait (210mm × 297mm). Target Paper Size: A3 Landscape (420mm × 297mm). Layout Mode: Booklet / 2-Up Saddle-Stitch (Left Binding). Duplexing: 2-Sided → 2-Sided (Flip on Short Edge). Finishing / Stapling: Center Saddle-Stitch (Dual Spine Staples). Scaling: 100% (Do NOT choose "Fit to Printable Area" as margins are already calibrated).	Internal Gutter: 10mm inner margin on all pages ensures text is never swallowed by the spine fold. Outer Margin: 10mm outer margin protects content from edge trimmer clipping. Page Budget: 16-page count ensures 4 physical A3 folded sheets with zero blank waste pages. Recommended Paper Stock: Cover Sheet (Pages 1 & 16): 120gsm or 160gsm Silk/Matt Cardstock. Inner Pages (Pages 2–15): 80gsm or 90gsm Uncoated (prevents ink show-through from highlighters).

16-PAGE BOOKLET IMPOSITION DIAGRAM

When printed as a saddle-stitched booklet, pages pair automatically on A3 sheets:

- Sheet 1 (Outer): Page 16 (Back Cover) • Page 1 (Front Cover) | Reverse: Page 2 • Page 15
- Sheet 2: Page 14 (Map Atlas) • Page 3 (Enquiry 1) | Reverse: Page 4 • Page 13
- Sheet 3: Page 12 (Exam Practice) • Page 5 (Enquiry 2) | Reverse: Page 6 • Page 11
- Sheet 4 (Center): Page 10 (Exam Practice) • Page 7 (Enquiry 3) | Reverse: Page 8 • Page 9
